"The Scholar's Lighthouse"

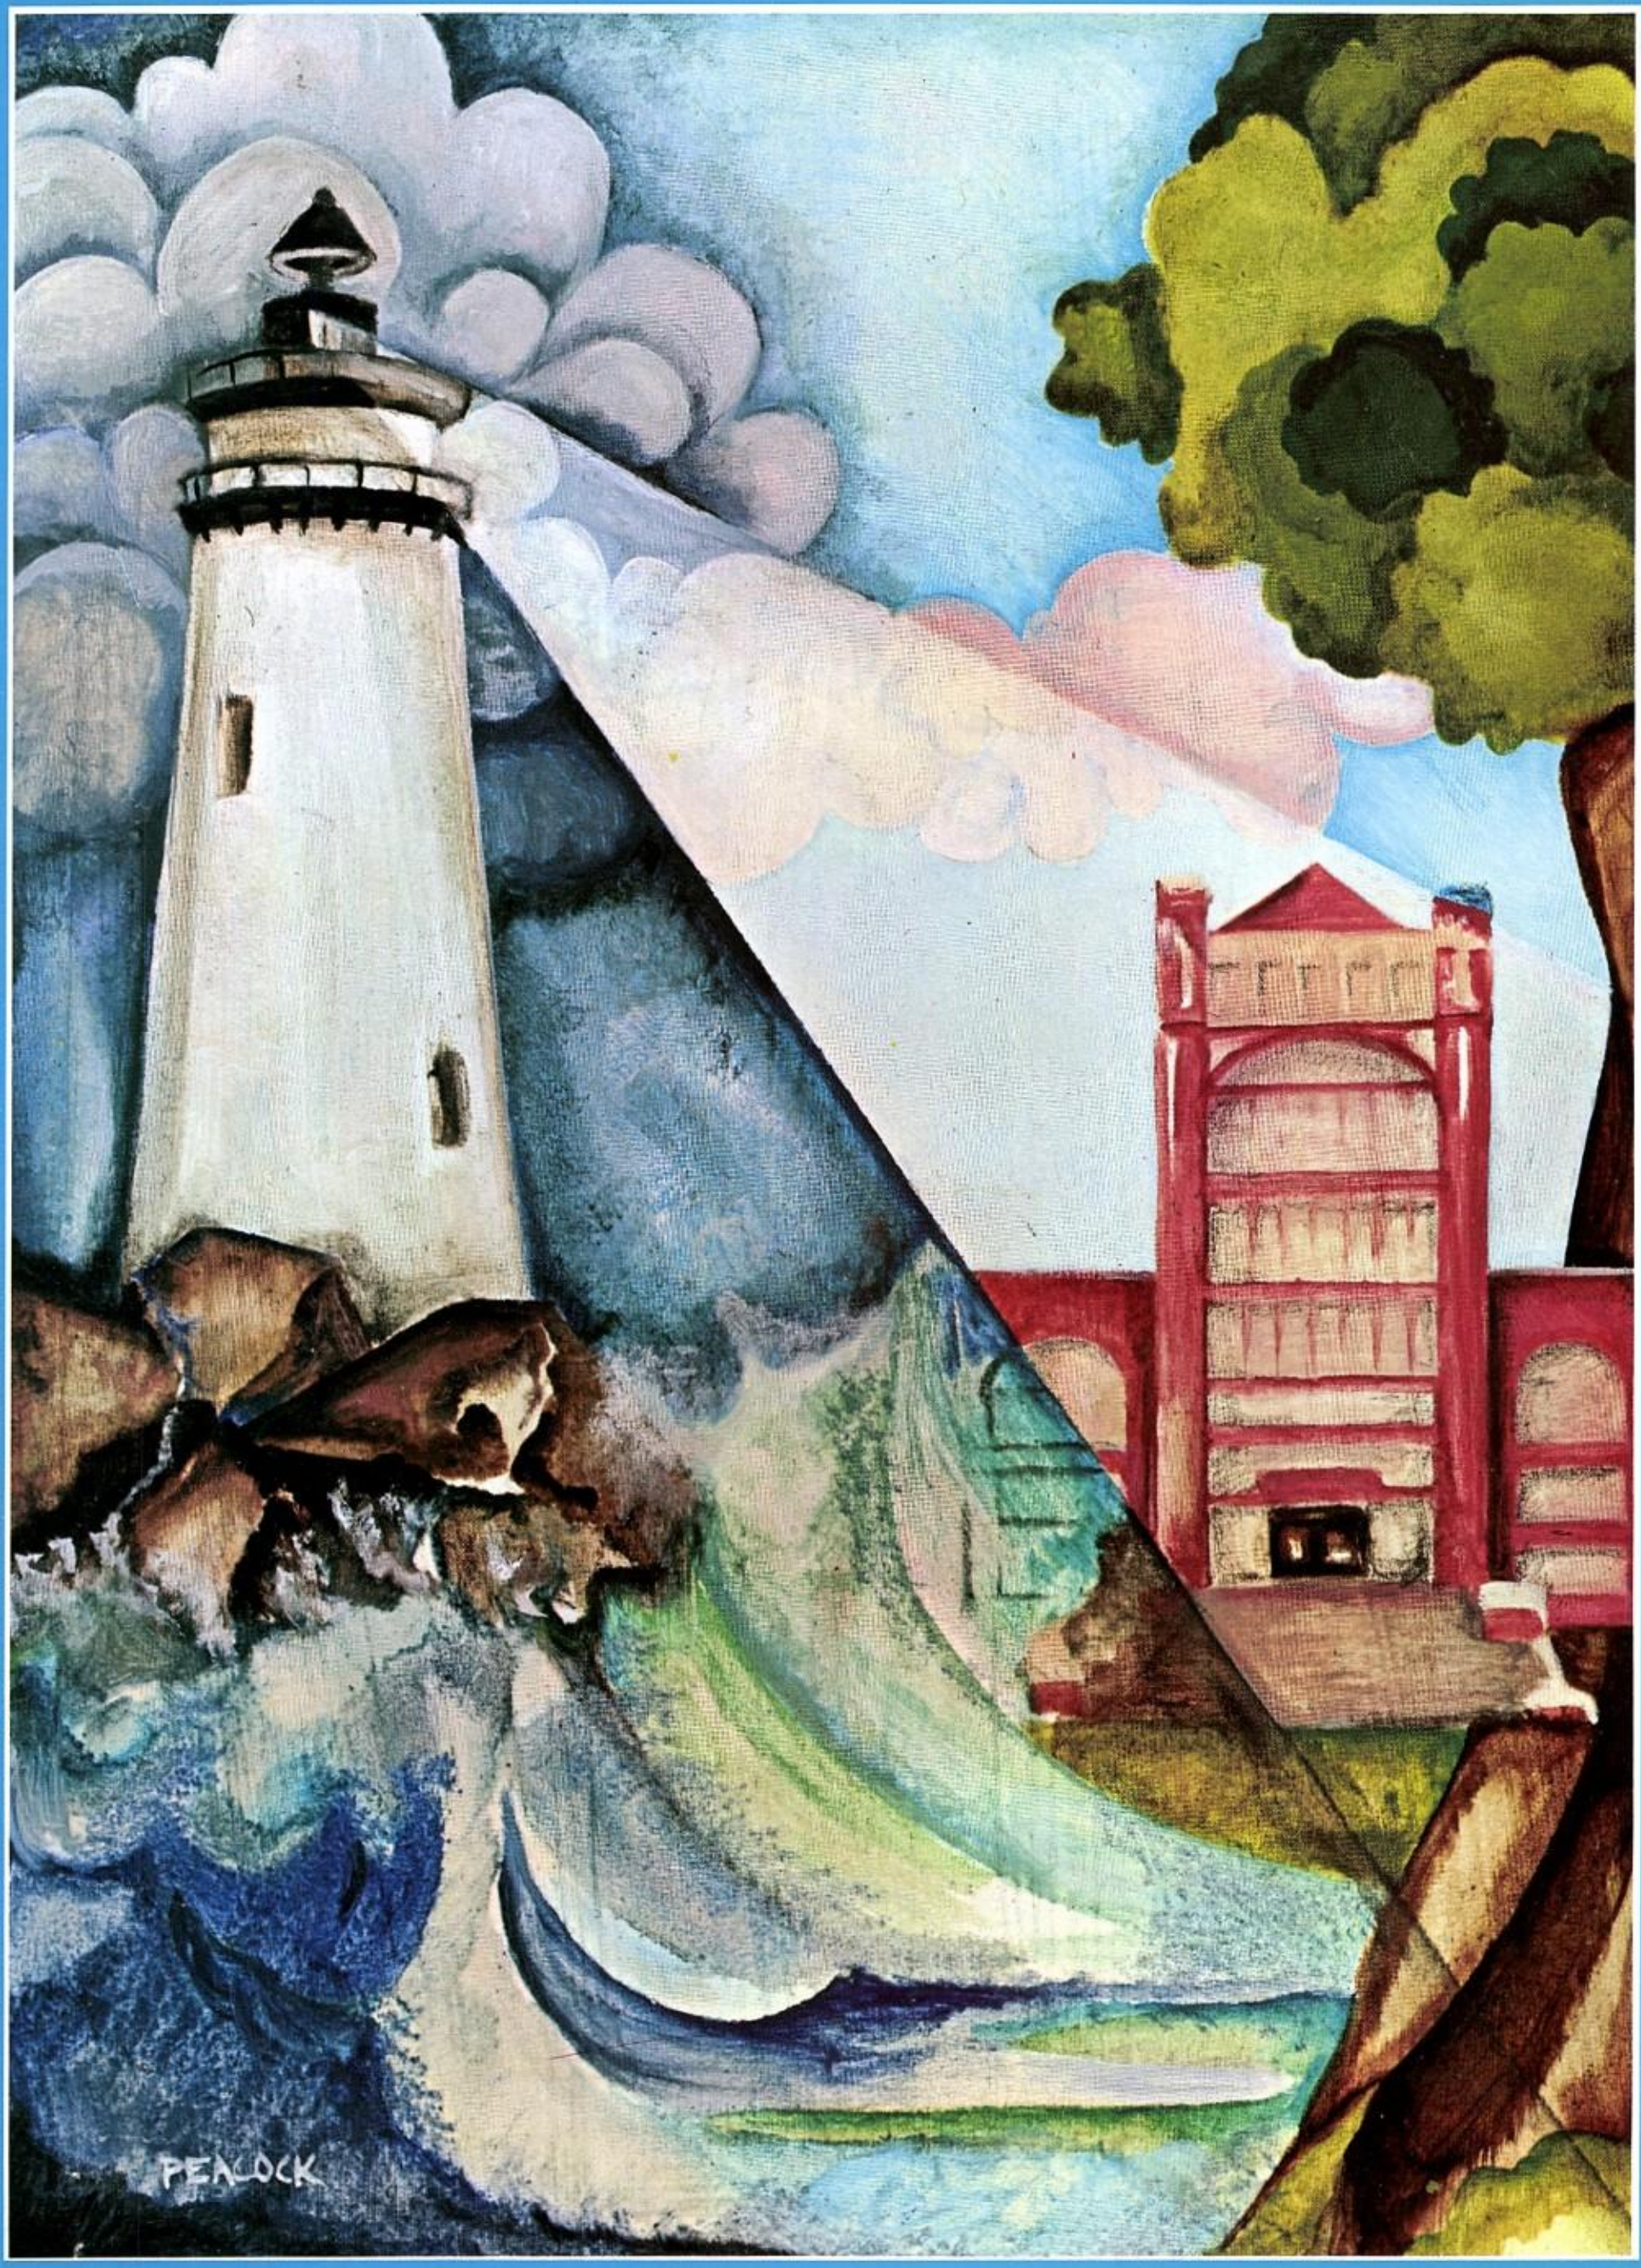
A lighthouse casts its crystal beam
Upon an open sea.
A strong wind stirs the ocean's foam;
A seagull wails a plea.
The rugged cliffs along the banks
Of some dark, restless shore,
Await the shimmering, guiding light
Of the tower evermore.

Across the rolling ocean's waves,
The lighthouse beam reflects.
Upon some lonely ship it casts
An aura of grave respect.
It often calms a troubled sea,
Sheds light on danger's path.
It's often found when sorely needed,
And subdues a raging wrath.

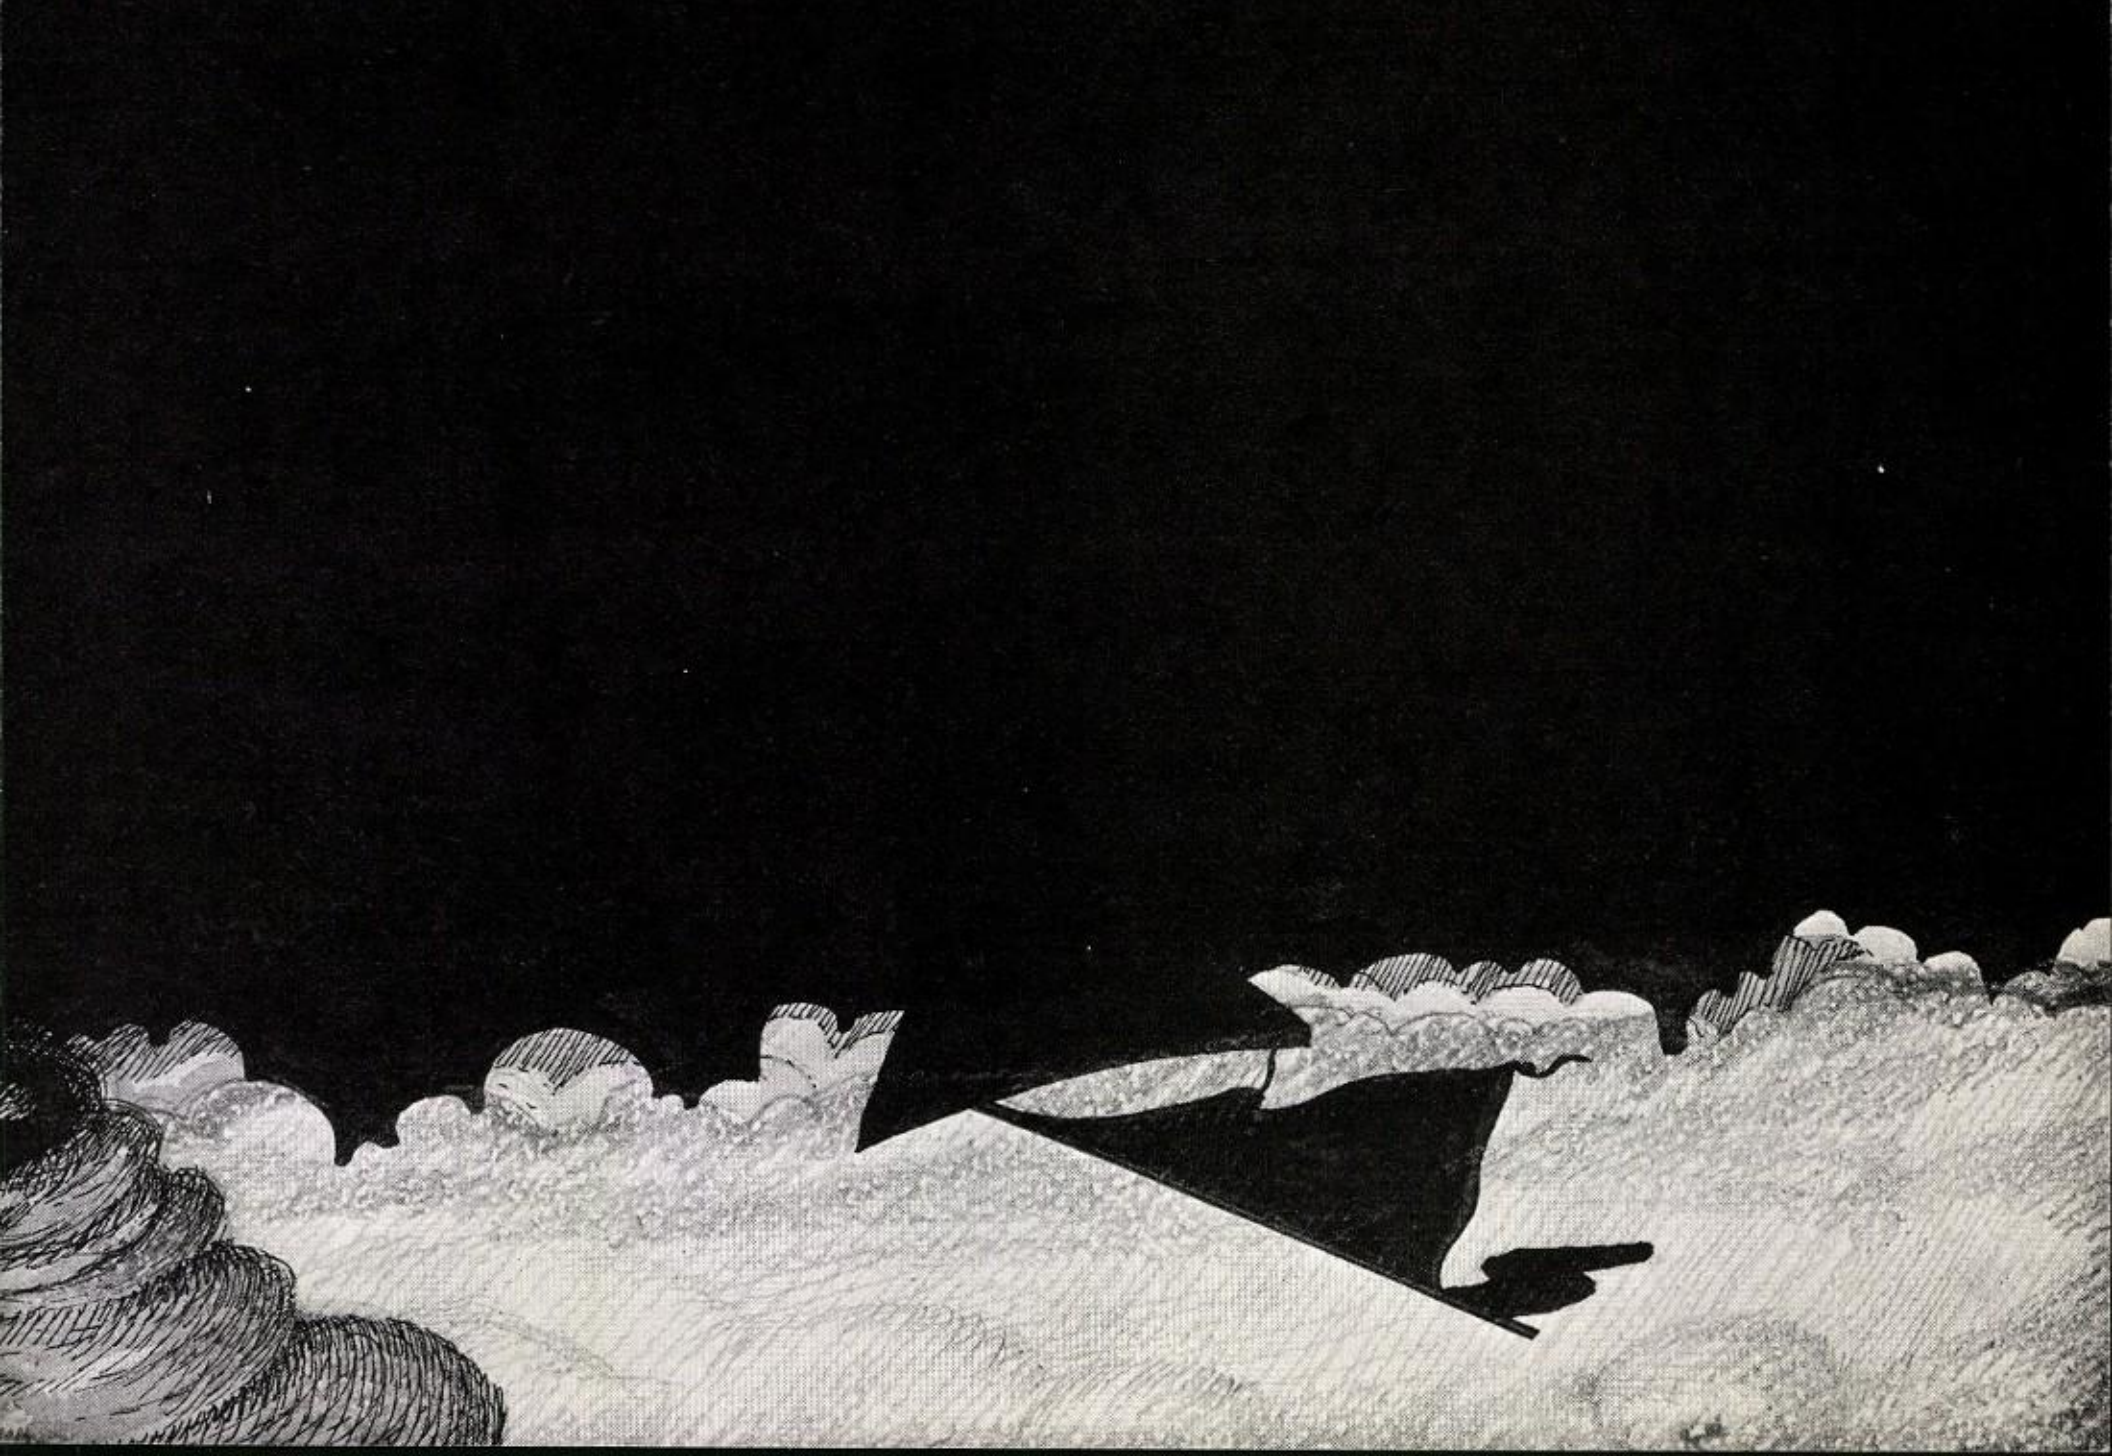
Atop a hill, the lighthouse stands,
Its golden hand stretched forth.
Its crystal beam spreads 'cross the sea,
From east to west, from south to north.
As doves do glide upon the breeze
In perfect and gentle array,
So, then, does this lighthouse stand supreme,
Beside its sea-shelled bay.

Education, like a lighthouse beam,
Brightens our future's trail.
It guides us to untold success
When our ship of life sets sail.
It is the hope on which we lean
When a stormy crisis is nigh,
And what worthier place to secure this gift--
Than at Trimble Technical High!

--David Lang



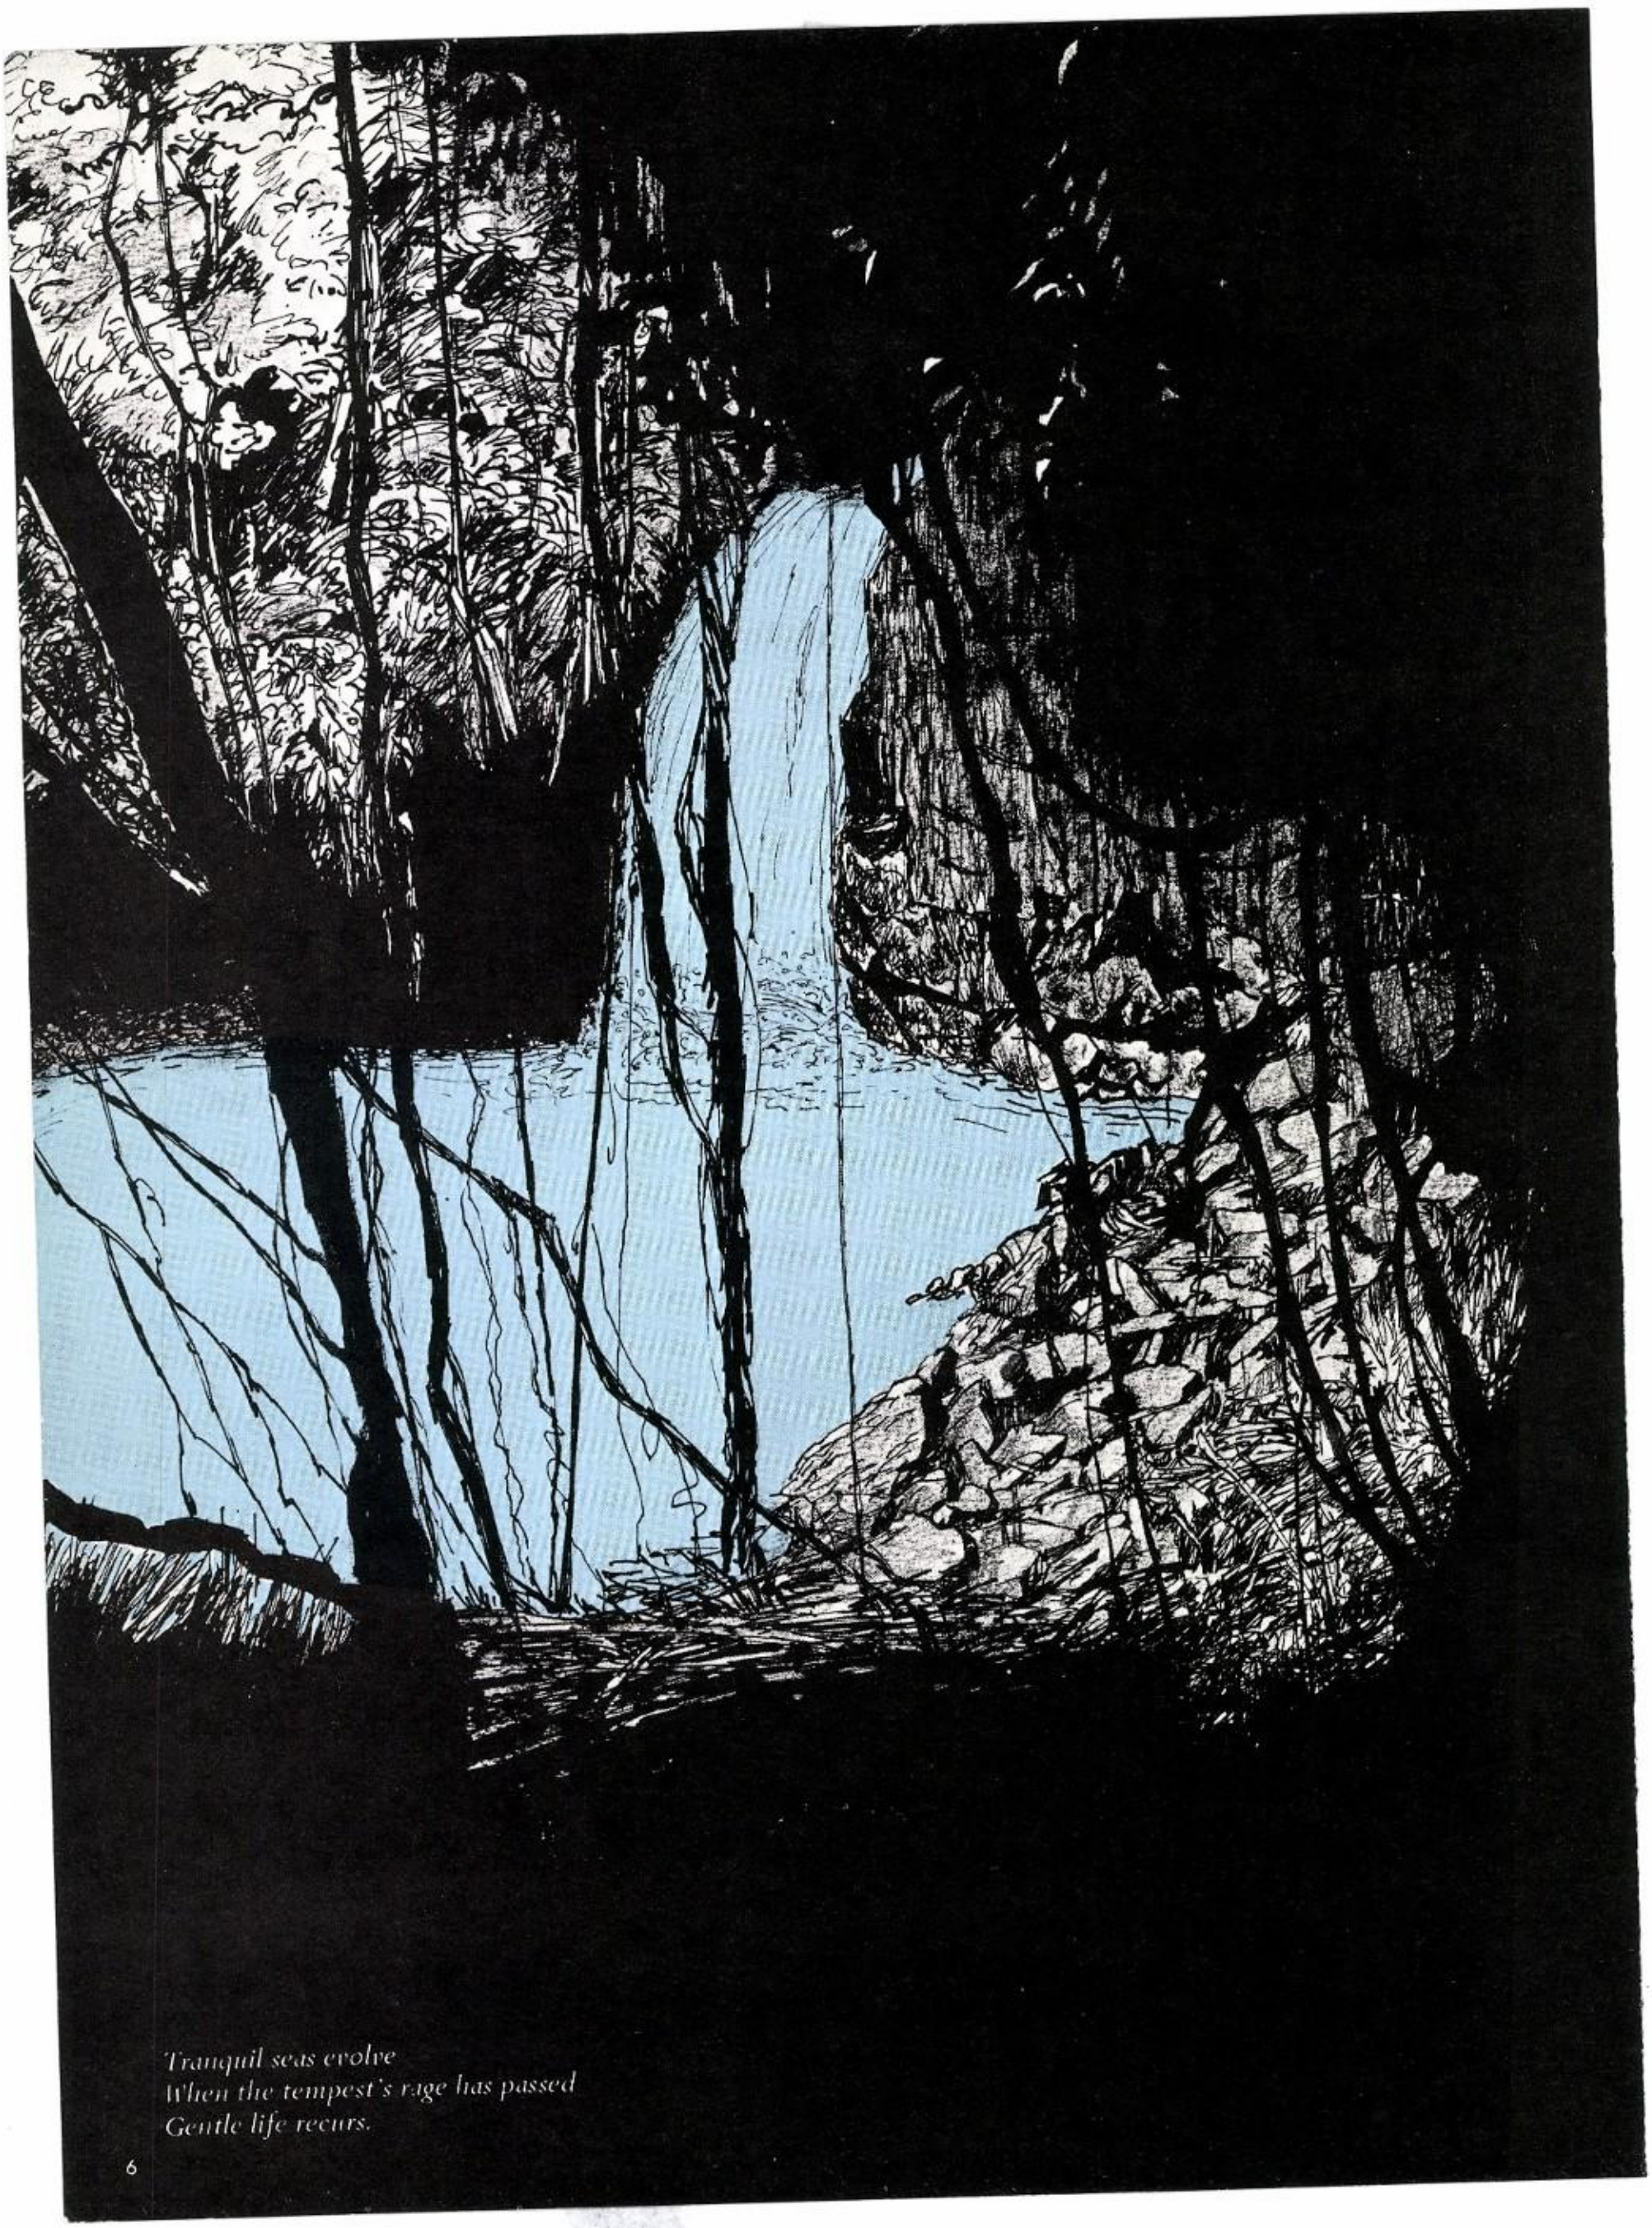
PEALOCK



Sea storms cast shadows

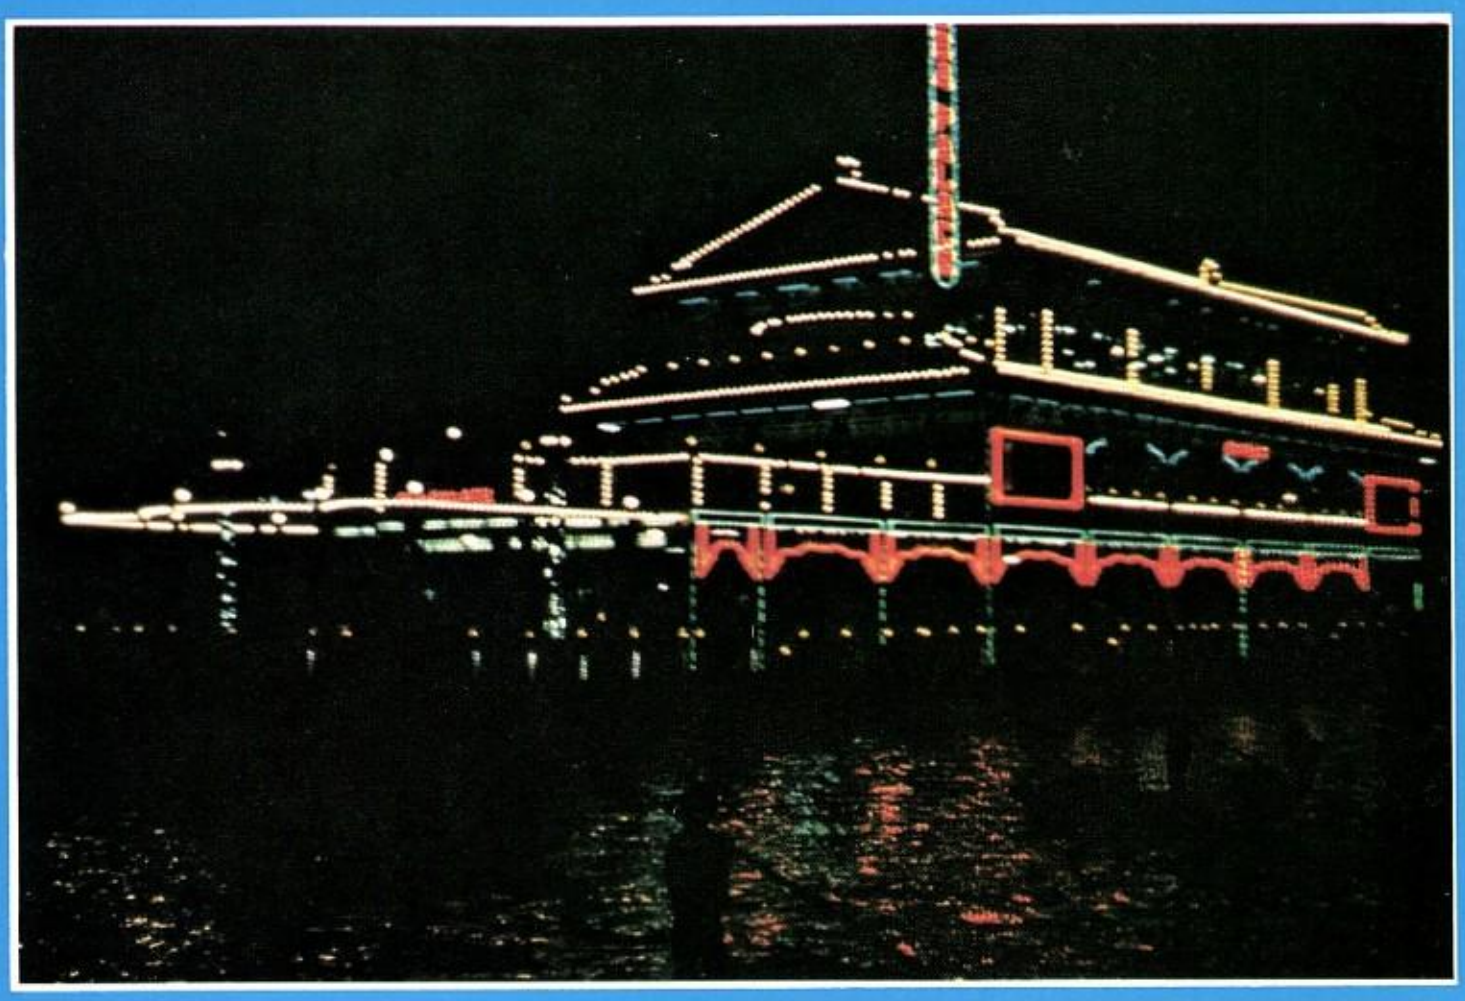
Life is not all smooth sailing

But peace shall return.



Tranquil seas evolve
When the tempest's rage has passed
Gentle life recurs.

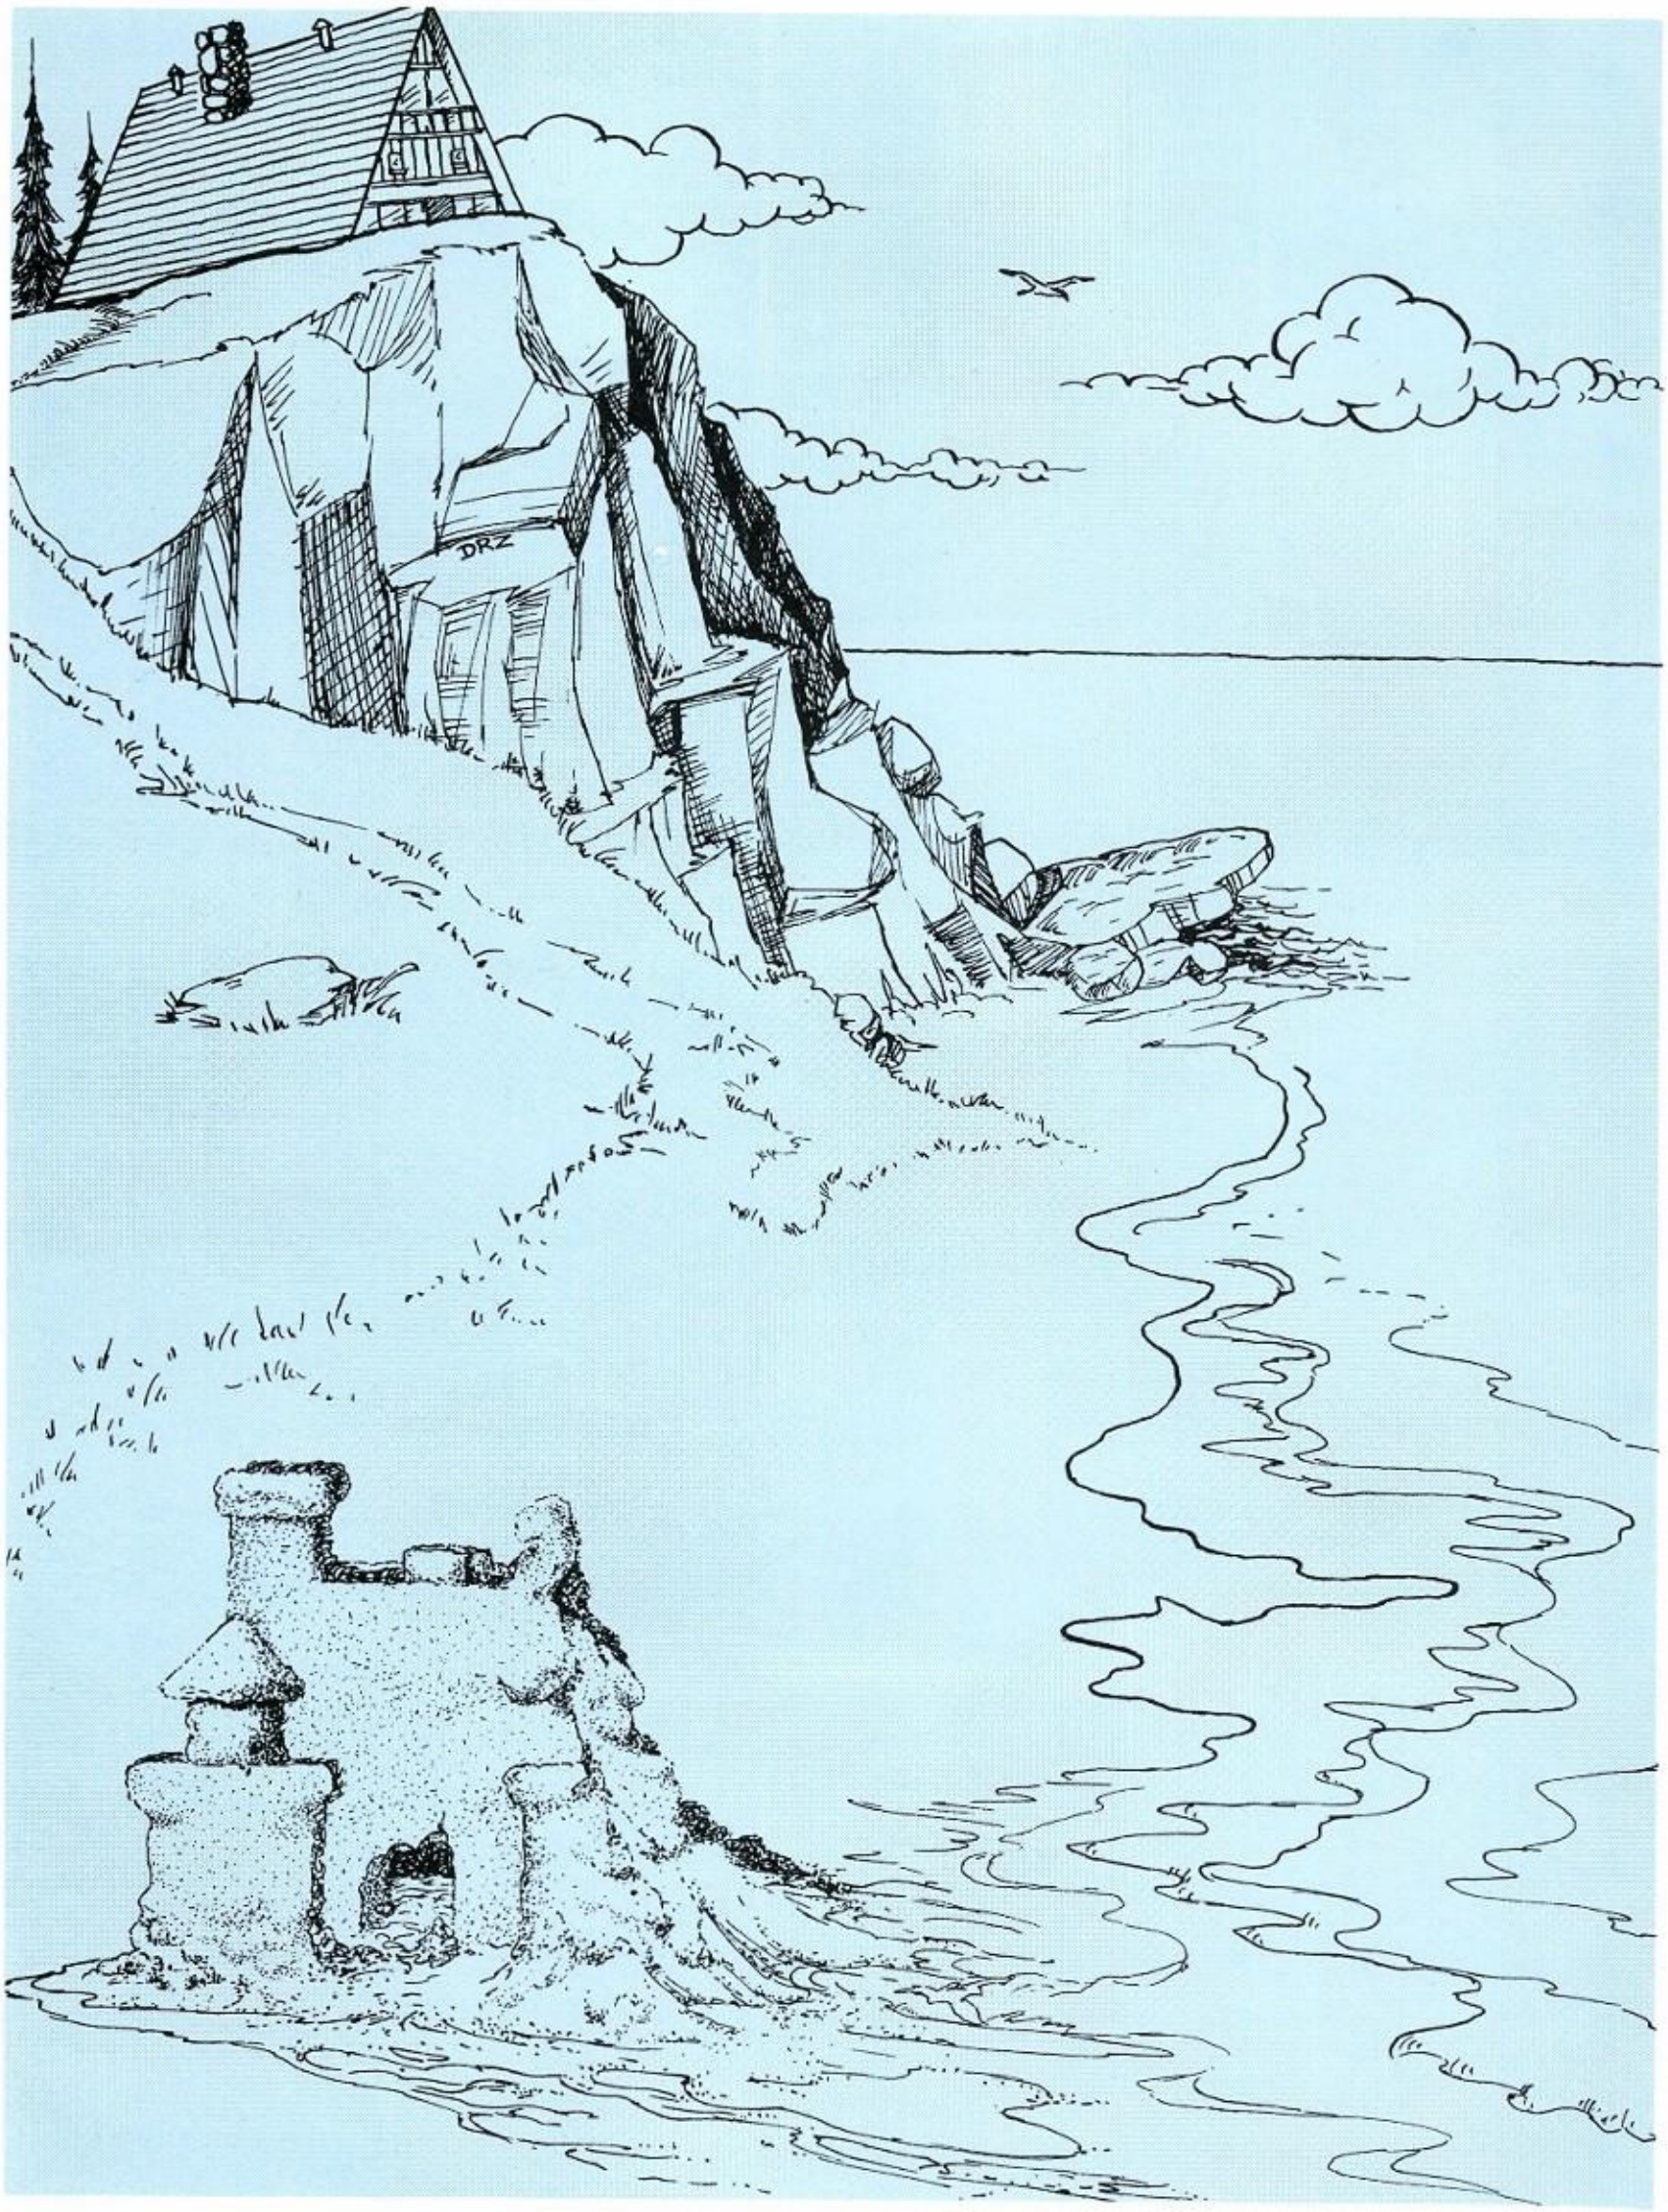
Water Is A Source Of Life . . .



(The Sea Palace glides along the waters of Hong Kong.)

(Water plays dominant role in this Banaras, India scene.)

. . . Education Improves It



Daydreamers build their castles on sand,
Then the tide comes in and clears the land.
Wise men search for foundations of stone,
Secure in the hope of a lasting home.
Then let us be wise and help build our nation,
On the solid rock of a good education.

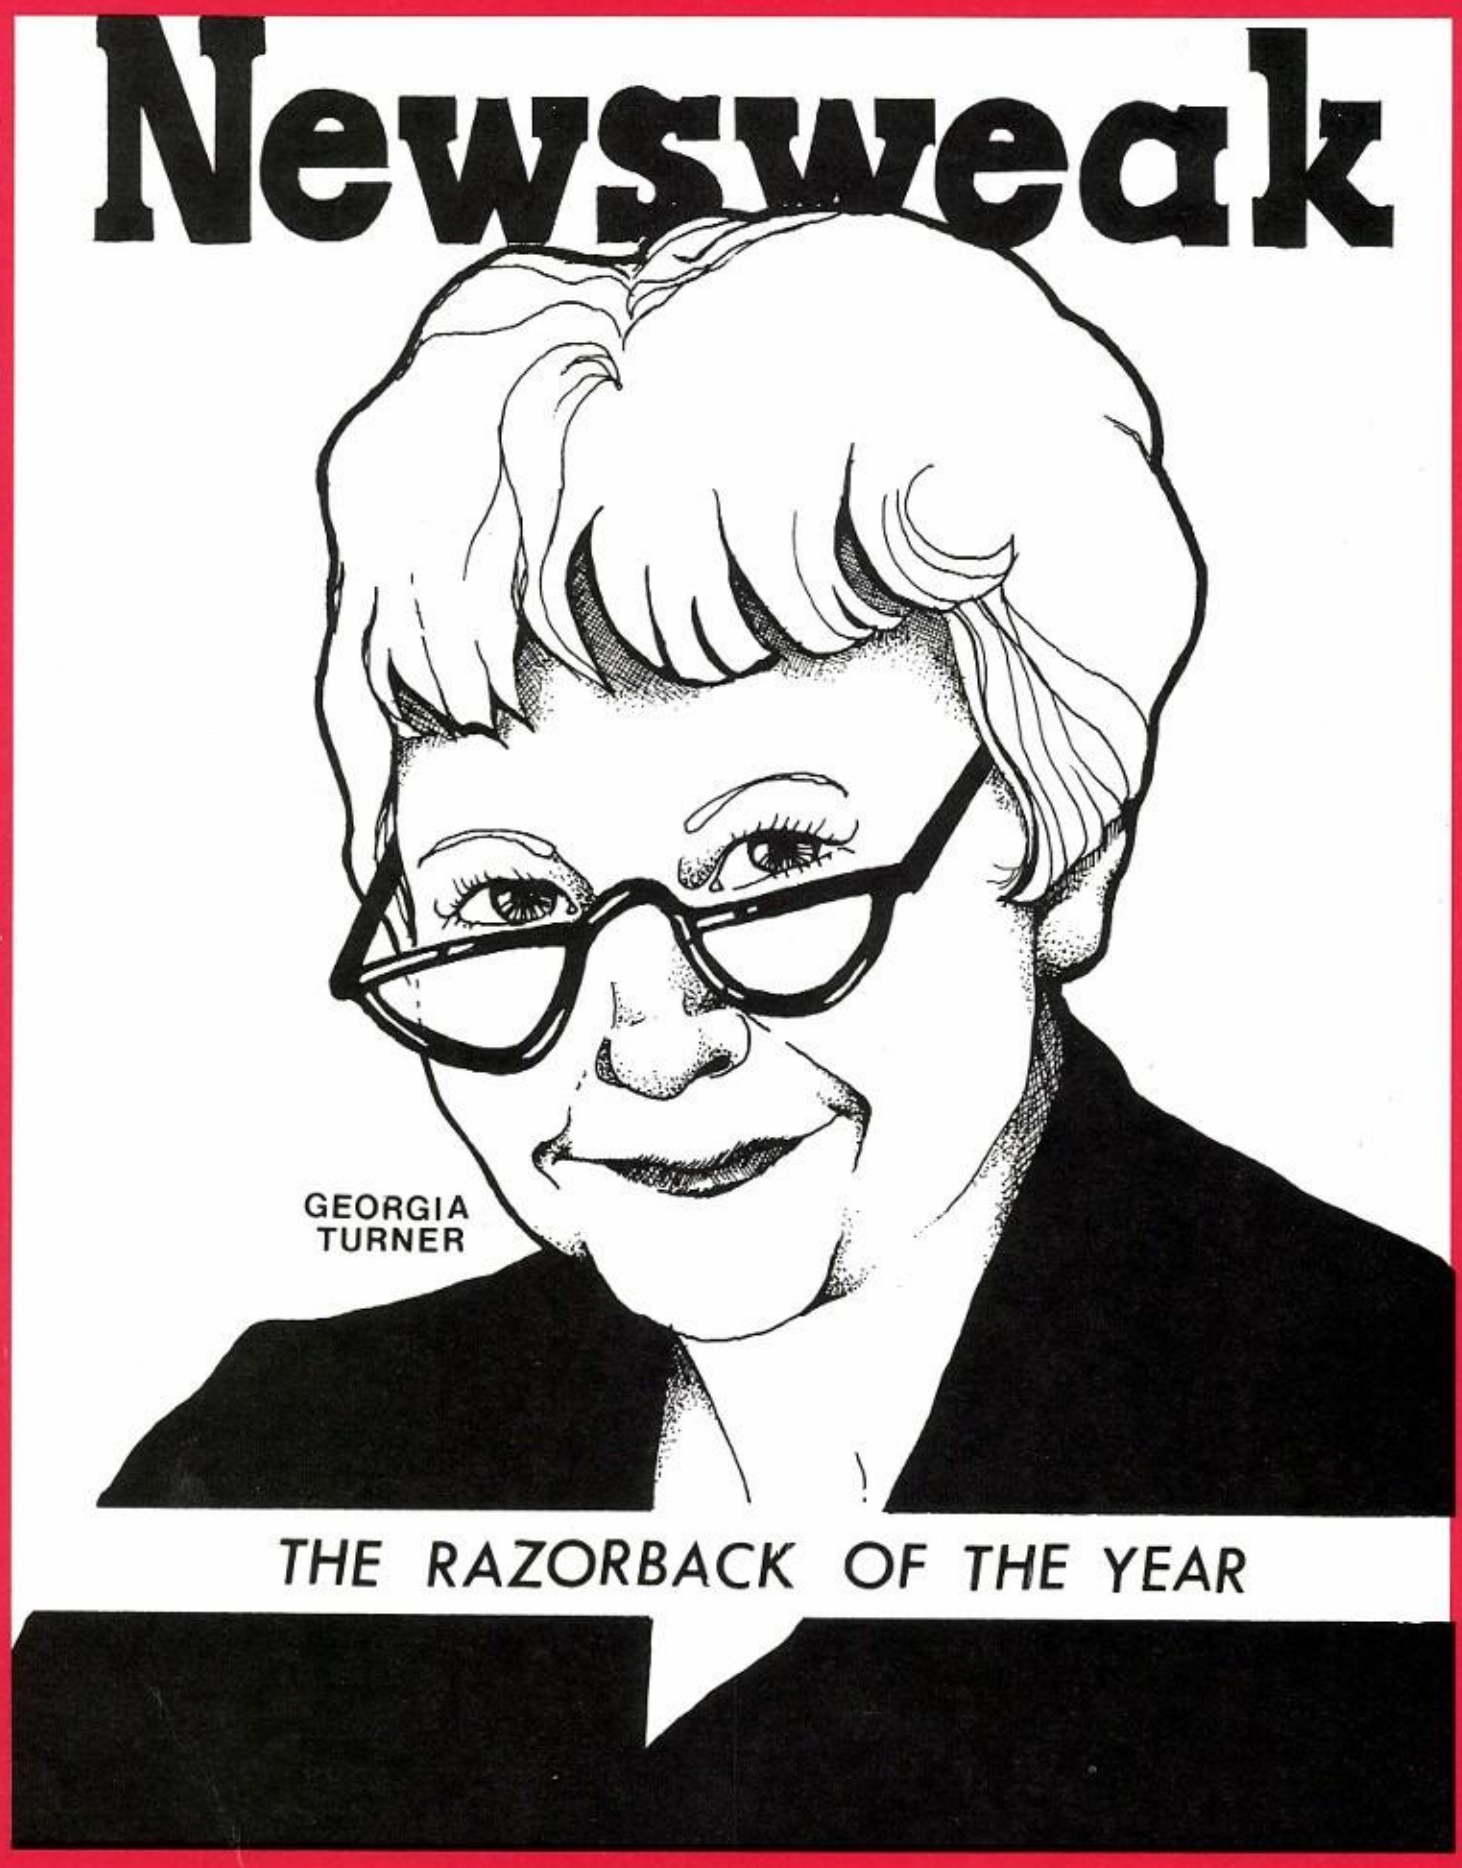
Turner And For Double

Mrs. Turner poses with her husband and children.

Mrs. Georgia Turner

The greatest fan of the Arkansas Razorbacks, Mrs. Georgia Turner was born in Hobart, Oklahoma and received her B.S. degree from Arkansas State College. After teaching outside Fort Worth for twelve years, Mrs. Turner came to Tech in September, 1955 to teach home economics. Her delightful personality reminds one of the zany antics of Lucille Ball, and on certain days her cries of "Soooee, Pigs" echo down the hall.

"You Must Have Been A Beautiful Baby" . . .



Green Selected Dedication Of Annual

Green ink, green dresses, and a green name! Mrs. Mildred Green received her B.A. degree from the University of Texas at Austin, where she concentrated on government, history, and French. With four years experience, she came to Tech in September, 1960. A connoisseur of fine foods, Mrs. Green likes to relax by slipping off her high heels while playing cards.

Ellen Peck, teenage advice columnist made her appearance at two Tech assemblies. She spoke on a variety of subjects, from abortions to voting.

Senior English Class Puts Humor Into Macbeth

"THAT'S MY COAT! It's my turn to wear it!" says Lady Macbeth (Doris Dill) to Macbeth (Curtis Wade).

"I THINK YOU need a shave," comments Norman Hall to Macbeth's head.

During the days of the Globe Theatre, Shakespeare's works were often pieced together from the scraps of paper that lay on the floor. The fifth period senior English classes attempted to recreate this spirit of acting and staging on January 14. Their version of the play Macbeth differed slightly from the original script, but the end result created the same effect upon the audience as Shakespeare had hoped--namely, outrageous laughter, mere disbelief, fear, and superstition.

"OH HAPPY DAY!" exclaim the Edwin Hawkin Singers.

"I HOPE I'M not next for the haircut," remarks Kare Leonard to Barbara Tally as Macbeth murders Duncan.

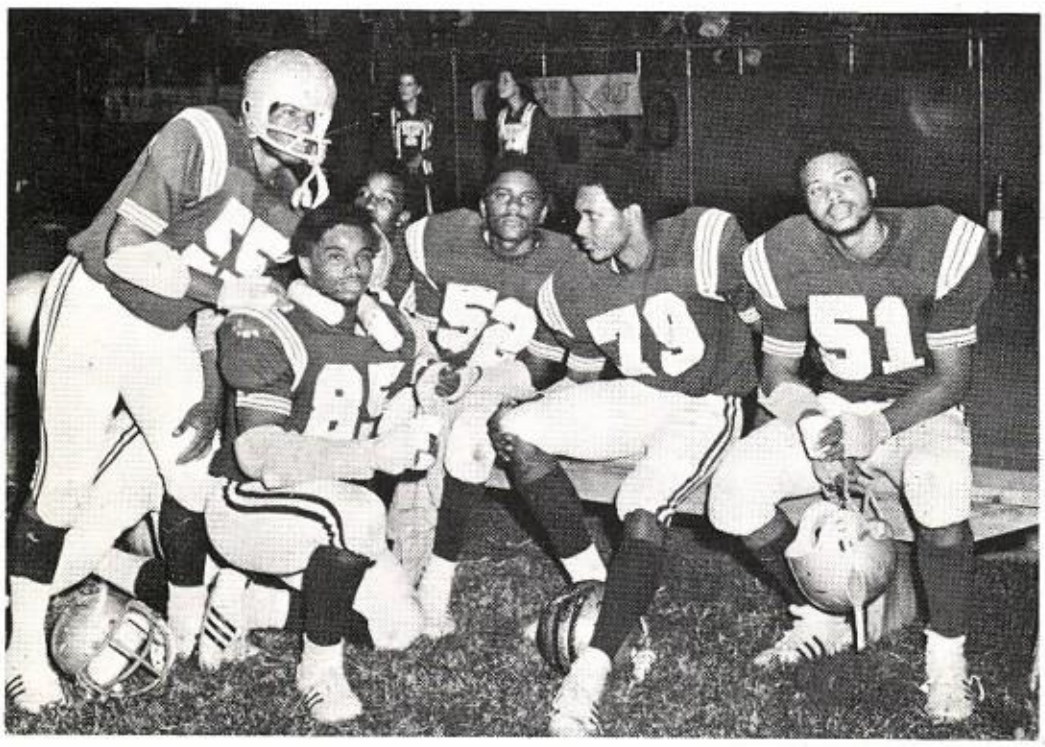
Football Season In Review

The 1971 Tech football team had the best winning record in Tech's history. Tech finished 7-3, but two of the team's losses could have been wins which would have resulted in a district championship. Although the Bulldogs failed to win the championship, they showed they had what many people speculated as the best team in the city. They first beat 4A-10 champion North Side by a 20-7 score, and then went on to defeat 4A-9 champ Eastern Hills by a resounding 33-14 score. Of course these victories were only two of the seven spectacular wins posted by the Headhunters, and Dirty Dozen, which was what the defensive and offensive units were called, respectively.

The Bulldogs were confident from the start of the season, not only because of the number of multi-talented players, but because of their maturity. Over half of the squad was made up of seniors. Most had been playing together since they were sophomores and were ready to make this the Bulldog's year. Although the Bulldogs will lose many quality players through graduation, such as Hubert Miller, Tony Willis, Fred Cornelius, David Briseno, David Robinson, Cedric Thompson, Daniel Alcala, David Porter, and Alex Wallace, next year's team will still have very fine players led by Raymond Clayborn, Leroy Wilson, and Charlie McAdoo. We here at Tech know they will continue the success which was established during the '71-'72 season.



TRYING TO CATCH their breath are Charlie McAdoo, Vincent Jones, Tony Willis, Fred Cornelius, Lehman Jones, and Cedric Thompson.

The team competes in 16 events--from high hurdles to two miles runs to pole vaulting. The back-up crew--the ninth graders--have been pretty hot themselves. An average practice will consist of 2½ hours of solid running and exercise. The medicine has worked, however, and Tech's Olympians are stretching their legs to reach state competition.

Most of the players are freshmen and sophomores. Interest, desire, and potential ability have really inspired the team this year.

In the 4A9 District practice round, the girls' doubles team defeated Poly, Diamond Hill, and Dunbar. The doubles and singles teams received letters for participation in their matches and participated in the 4A9 District Tournament at McLeland Tennis Center on April 10. These girls have exhibited good sportsmanship and spent many hours representing our school in tennis.

The girls' badminton team was invited to the Second Annual High School Tournament held March 3-4 at T.C.J.C. Rachel Herrera won first place in singles, as she did last year. Lupe Quintanar won second place in singles, as last year. Rachel and Lupe won first place in doubles for the second year in a row. Bridget Sawyer won consolation. These girls received individual trophies for their outstanding performances.

Dedication Is Key To Principal O'Connor's Success

Into his hands are lives entrusted--
Futures weighed by scales of justice,
Upon his shoulders, pressures lie--
Problems to solve and loose ends to tie.
He does all of this day after day,
While very few recompenses chance his way.

Stalwart and strong is his dedication
To preserving Trimble Technical's higher education.
Of unyielding purpose is his will to progress.
He strives toward this goal daily, as all will attest.
He remains ever humble, and to Technical true.
So for this, Mr. O', we pay tribute to you.

The concept of P.T.A. is an old, established one, but Tech was one of the first schools to let students become involved in planning and presenting the programs.

A LIFETIME MEMBERSHIP in P.T.S.A. was awarded to Mr. O'Connor (shown here with his wife). In a skit prior to the presentation, Dale Zelazny and Pam Sisco impersonated Mr. and Mrs. O'Connor.

Future Teachers Of America Go To Dallas Convention

"IS JAMES BOND *really* staying here," say hopeful members.

Future Teachers of America is for students that are interested in teaching as a career. F.T.A. members sold Santa candy-grams and Valentine candy-grams to earn extra money. The F.T.A. State Convention was held in Dallas this year during the weekend of February 25. All of the members that attended had an interesting time.

DIANNE ZALESKI IS very tired after F.T.A.'s arrival in Dallas.

Norman Hall

As he slew Macbeth on Tech's drama stage, so Norman Hall stabs at young maidens' hearts. His flirtations reach beyond the fairer sex, however, and culminate in the finer arts. This innate artistic nature has won him many honors, many awards, and much pleasure.

In the January stage version of Macbeth, *he portrayed Macduff, while over a local television station on February 26 he portrayed Macbeth. This talented actor won Who's Who in Speech. Norman is the business manager of the* Tech Bulldog, *parliamentarian of the student council, a member of the Spanish Club, and a varsity basketball star.*

Any position related to broadcasting or the newsfield would suit Norman well. For the past two years he has taken Data Processing. In his spare time, he plays basketball, golf, goes fishing, and, of course, flirts with beautiful girls.

Joy Ince

"I came to Tech to get the best education that I could possibly get. Tech has the finest business courses in the nation." This philosophy summarizes Joy Ince's career record at Tech. For the past two years she has been a member of the National Honor Society, of which she is now secretary. On March 21 she was awarded the Outstanding West Texas Scholar Award. If there was ever a lady "Bulldog," Joy would be it. She has eaten up every award imaginable in grand "Tech" style.

Joy's major is Data Processing; she is OEA-Data Processing Sweetheart and has won Who's Who in Data Processing.

Somehow between being vice-president of the Bulldoggers, treasurer of Allied Youth, Future Teachers of America, Smart Set, student council, and annual staff member, Joy maintains a 4.0 average.

The "Most Likely to Succeed" of 1972 plans to go to the University of Texas at Arlington or Texas Wesleyan College. The amazing attitude Joy has when awarded is always, "Who? Me?" As down-to-earth as country music, Joy has kept her honors and awards to herself. To put the icing on the cake, however, she has old-fashioned, honest-to-goodness school spirit.

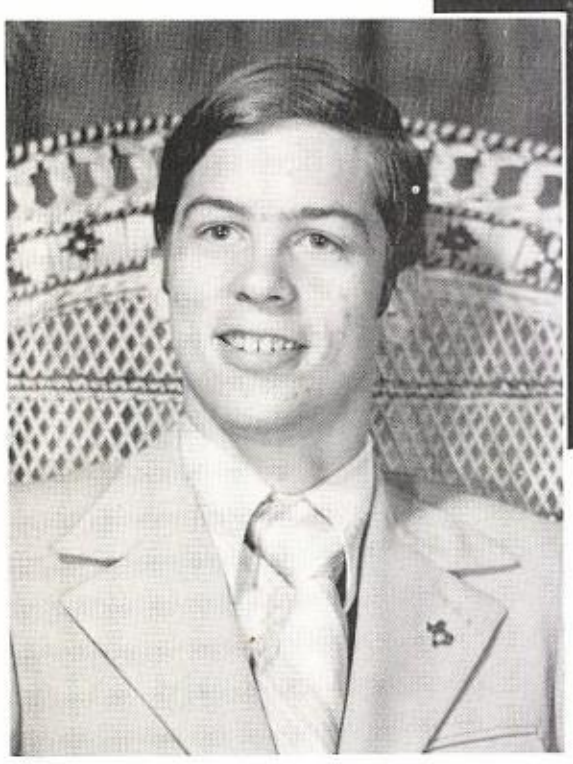
Mr. And Miss Tech First Runners-Up



Pete Lohmer

Juanita Gentry

The deep voice that greets you at halftime football games . . . the tall, smooth-looking young man towering over a public podium . . . the collected reasoning of a bargainer in administrative debates . . . leading cheers on the bus from school outings . . . the wrinkled brow laboring over a drafting board . . . these are the many faces of Pete Lohmer. Pete has won many awards and honors while at Tech, including Young Texan of the Month from the Breakfast Optimist Club and American Legions Boys' State, 1971.

The Spring Follies Talent Show of 1968 was written and directed by him, as well as the founding of the local Smart Set Club. His service in the Bulldoggers, Allied Youth, PTSA, and newspaper staff have won Pete the admiration and respect of his faculty and fellow students.

Although an Engineering-Drafting major, Pete plans to study forestry, wildlife, and oceanography at Texas A & M.

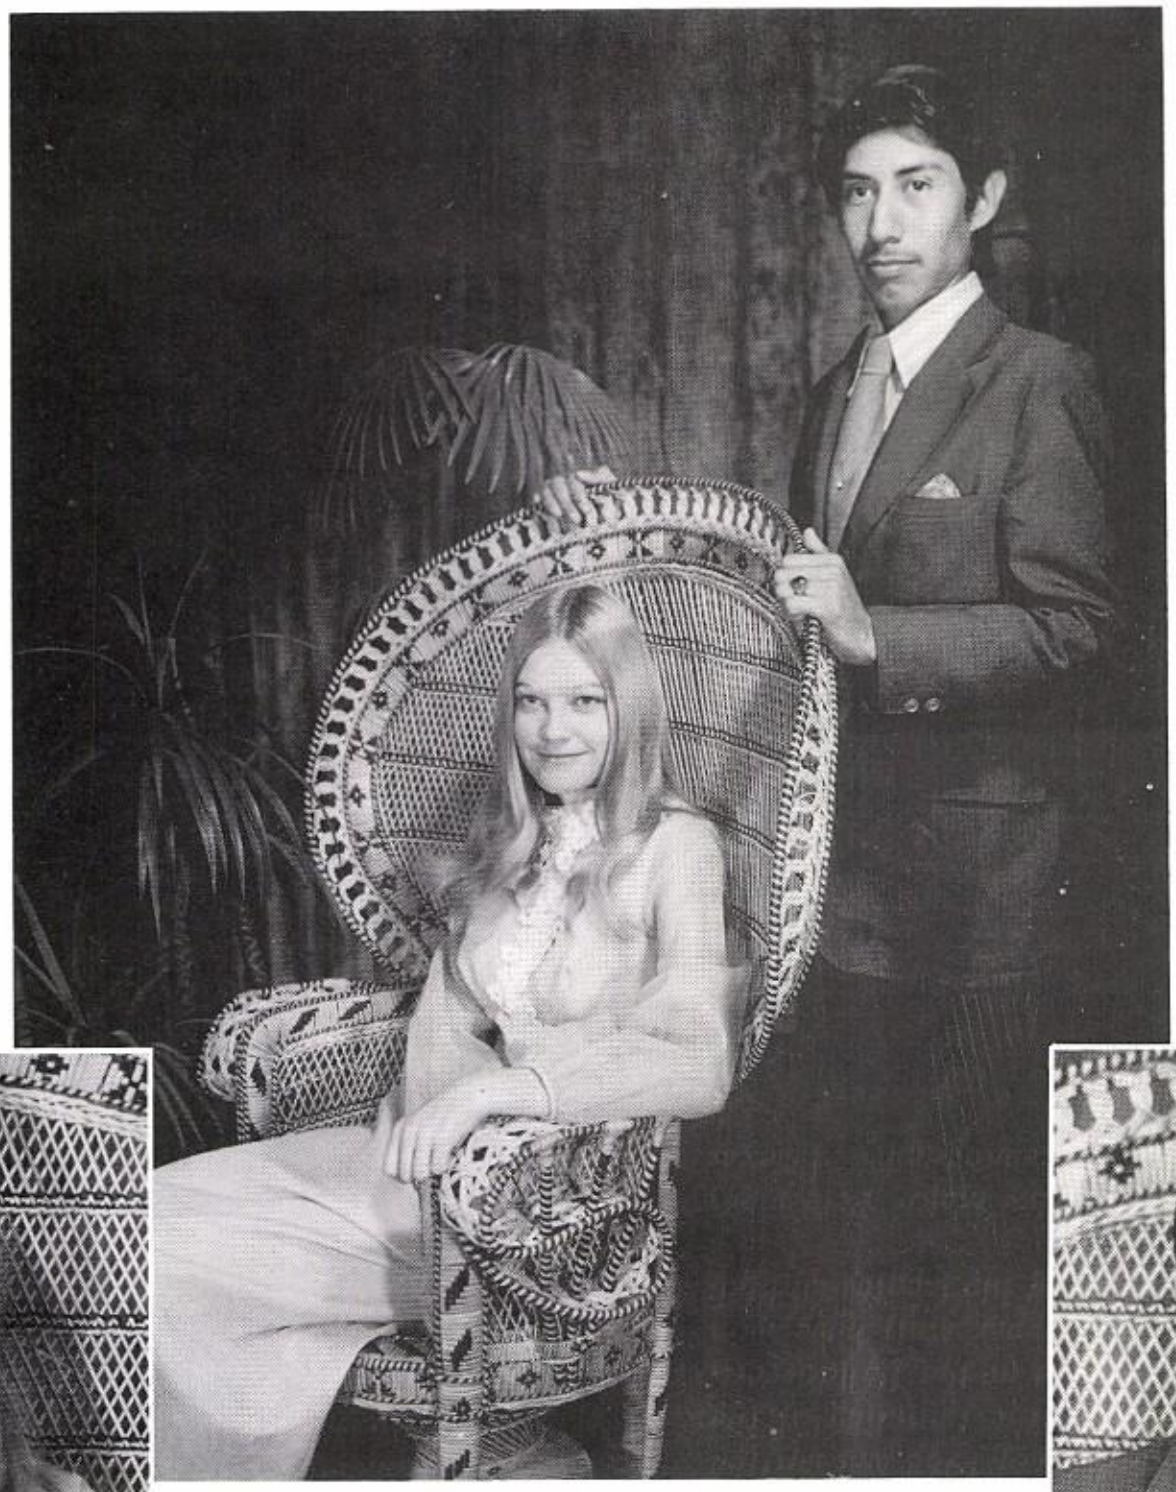
During the summer of '72 you might see a Techite in the summer olympics. Juanita Gentry, on the volleyball, basketball, tennis, and badminton teams, plans to become a physical education instructor; what a talent she has. She is enthusiastic, intelligent, energetic, and has a great sense of humor.

As senior class parliamentarian and president of the P.E. Leaders, Juanita has displayed charm and responsibility to sponsors and peers. Other clubs she is involved in are Smart Set, student council, Future Teachers, OEA-Shorthand, Science Club, PTSA, and the newspaper staff.

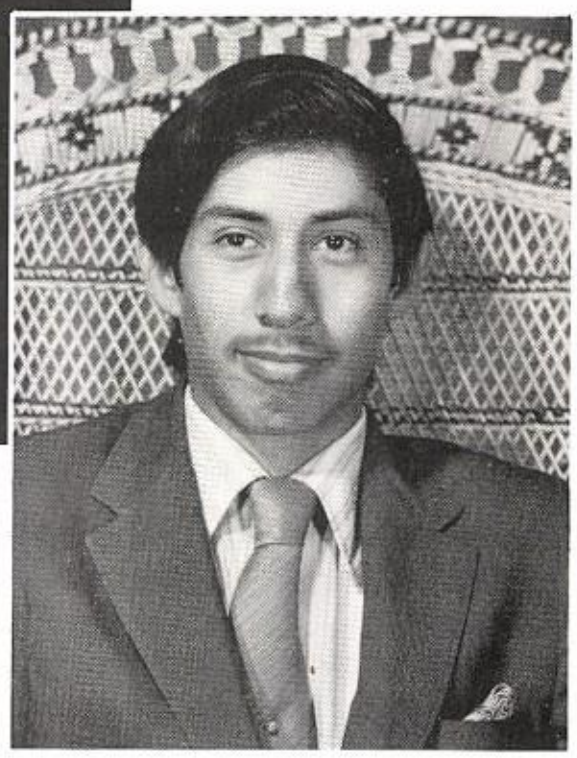
Juanita has been selected VICA Sweetheart, Football Princess, Most Outstanding Student in Physical Education in both her sophomore and junior years, Who's Who in P.E., and Most Athletic Girl.

She is a varsity cheerleader, skates, dances, and is majoring in stenography. The Olympic Committee may still be trying to catch her in September, but they will have to travel to college to get her.

Mr. And Miss Tech Second Runners-Up



Pam
Sisco



Jesse
Zamarripa

On Marsh 17 Pam Sisco received a scholarship to the University of Texas at Austin to study law. She has wanted to be a lawyer for many years and feels that it is something God intended her to do.

Pam directed and produced Macbeth, *legislated for a student council newsletter, and founded the Student Tour Guide Association.*

She is a member of the Science Club, Future Teachers of America, Parent-Teacher-Student Association, Bulldoggers, and Smart Set. On March 18 she was elected Area I OEA Secretary.

Pam is a stenography major and plans to work her way through college as a legal secretary. Pam won second place in stenography competition at the OEA District meet and was awarded Who's Who in Stenography.

Besides this work, Pam is editor of the Tech Bulldog, *the school newspaper, and was voted "Most Talented."*

"He walked up to us in practice, said he had been practicing, then kicked the ball 60 or 70 yards. Over and over again he ground his toe into that ball. He made the team that very day." These were the words of Coach John Naylor as he described the game-saving kicking of Jesse Zamarripa. This is the first year of football for Jesse -- but by no means is his name new to Technical sports. Jesse, a pitcher, has been on the baseball team for three years, and his teammates have elected him captain.

Sports are not the only subject Jesse is interested in, though. He is majoring in Engineering-Drafting and plans to go to TCU to study Business Administration. Jesse also demonstrated his acting ability as Siward in the stage version of Macbeth. *For the past two years he has been a member of Future Teachers of America.*

After school and baseball practice, Jesse enjoys listening to good music and being with his girlfriend.

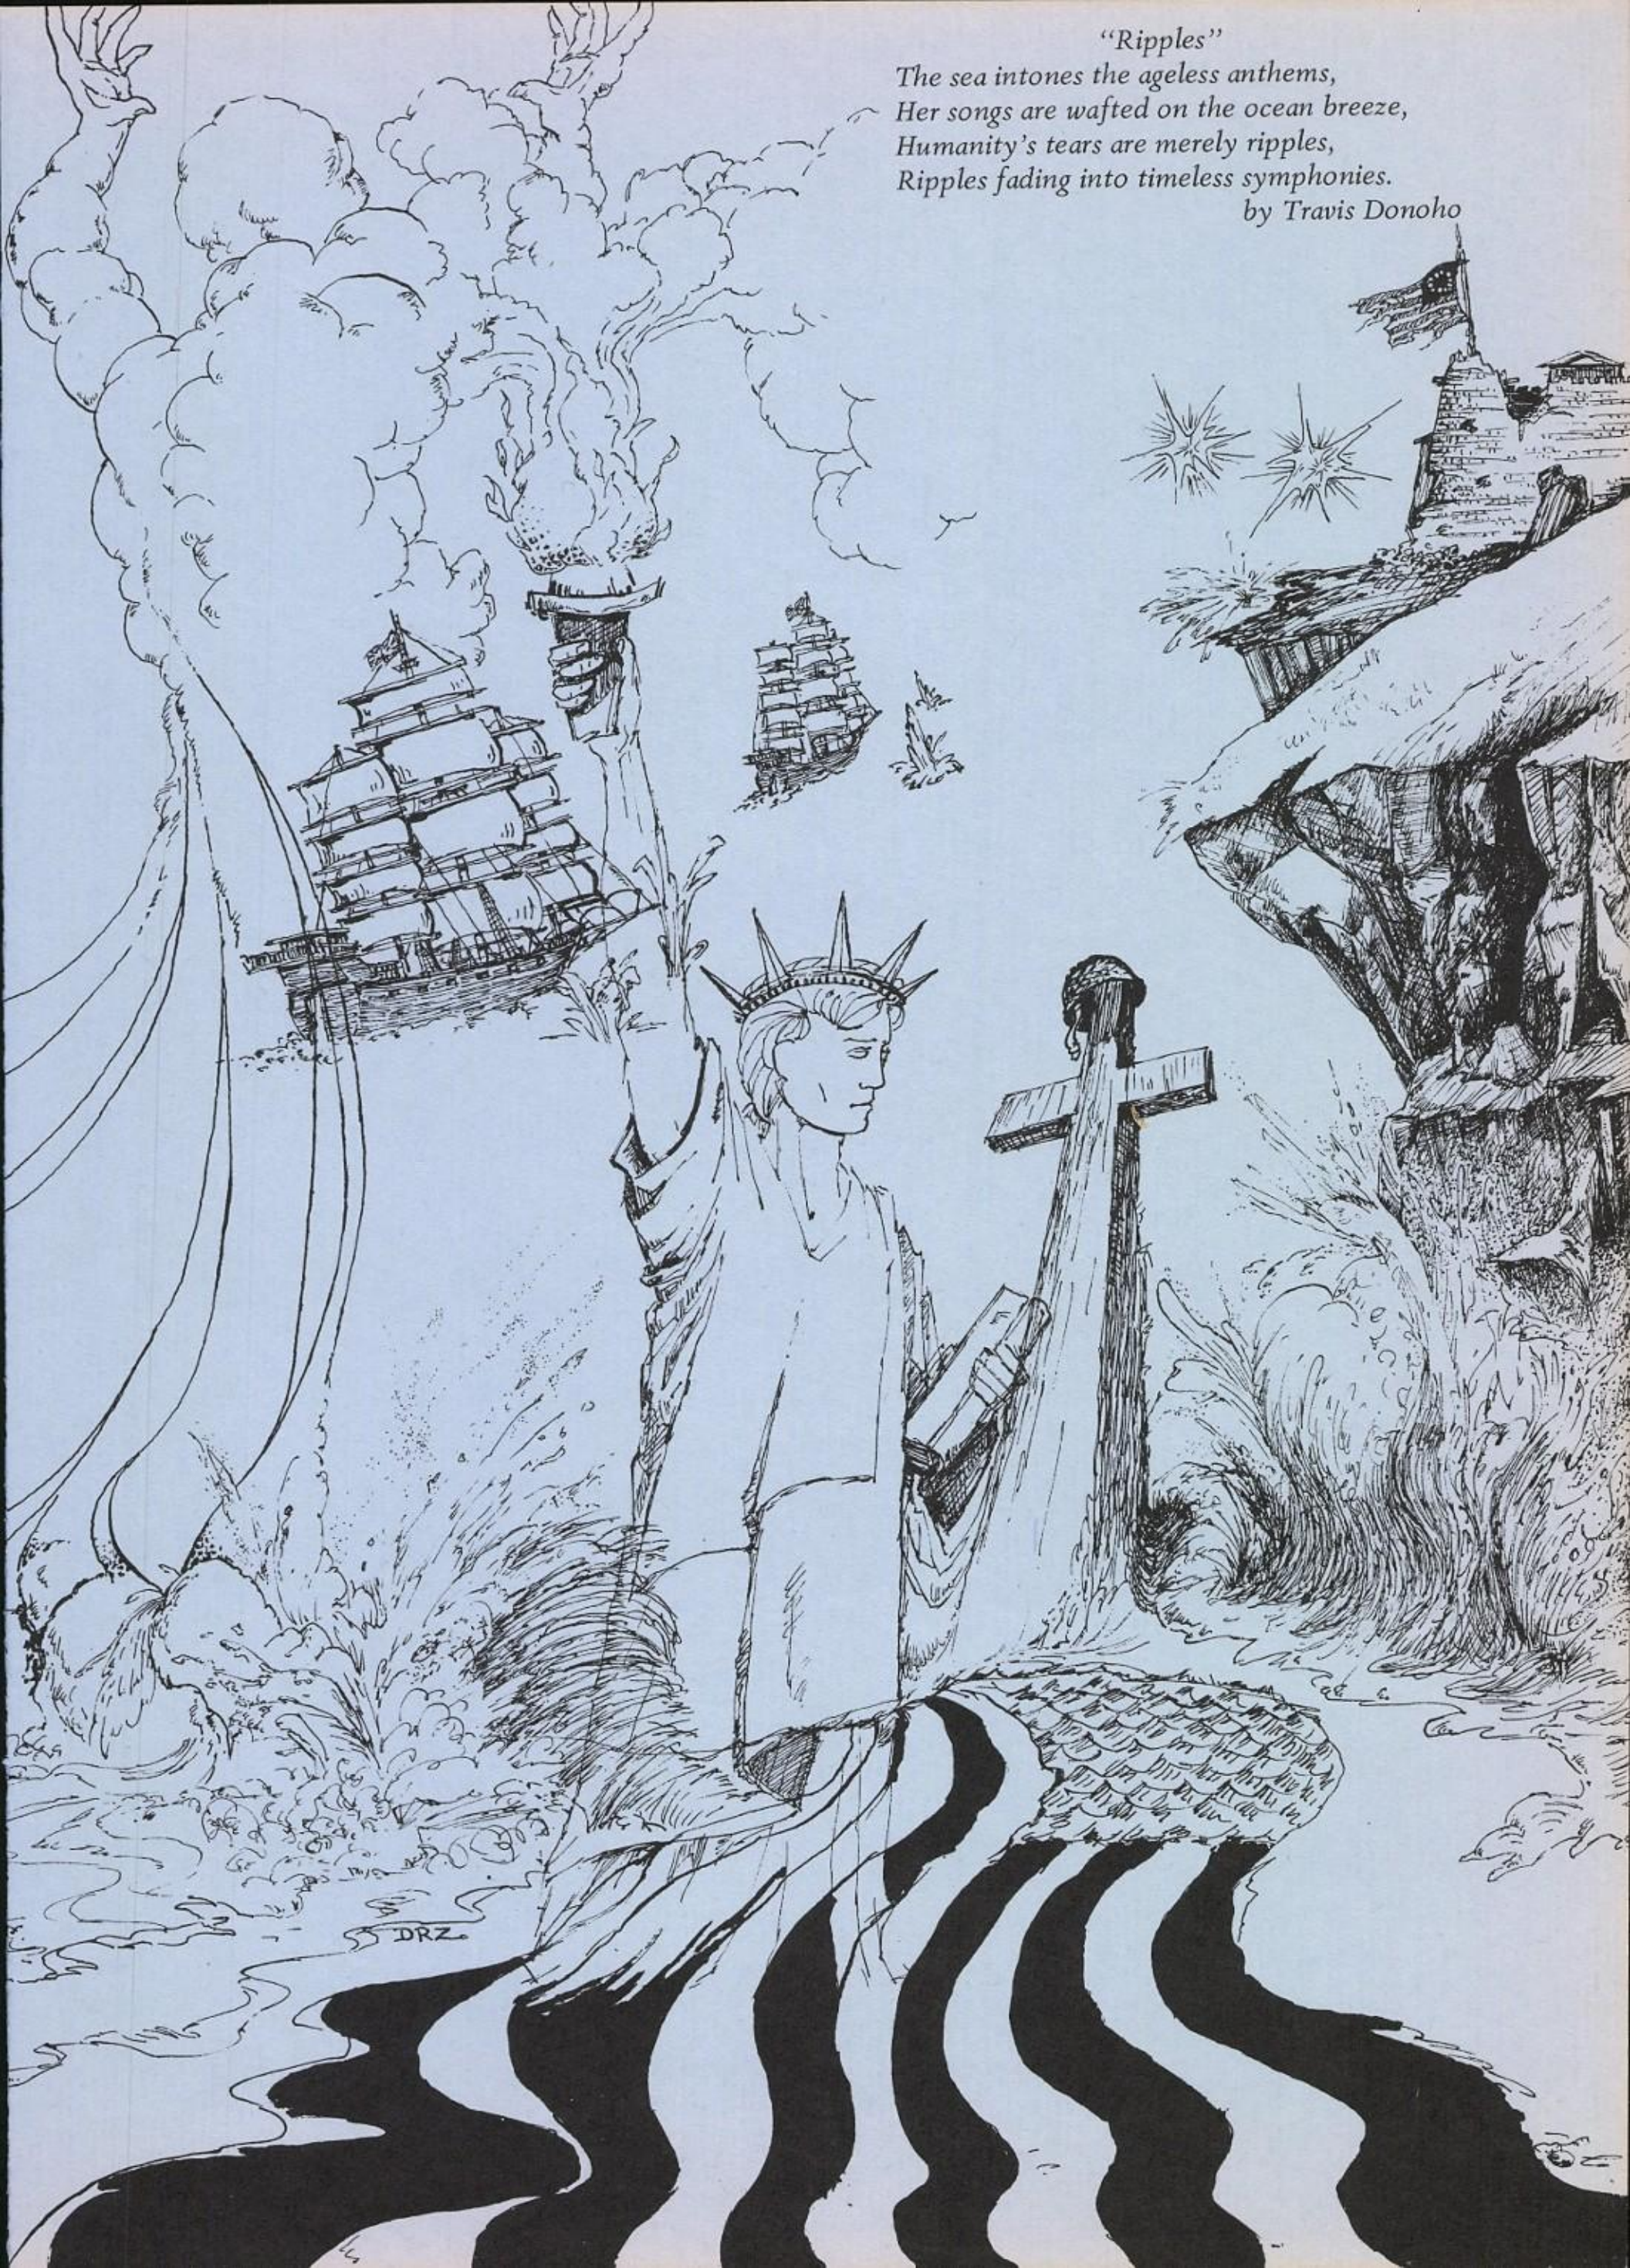
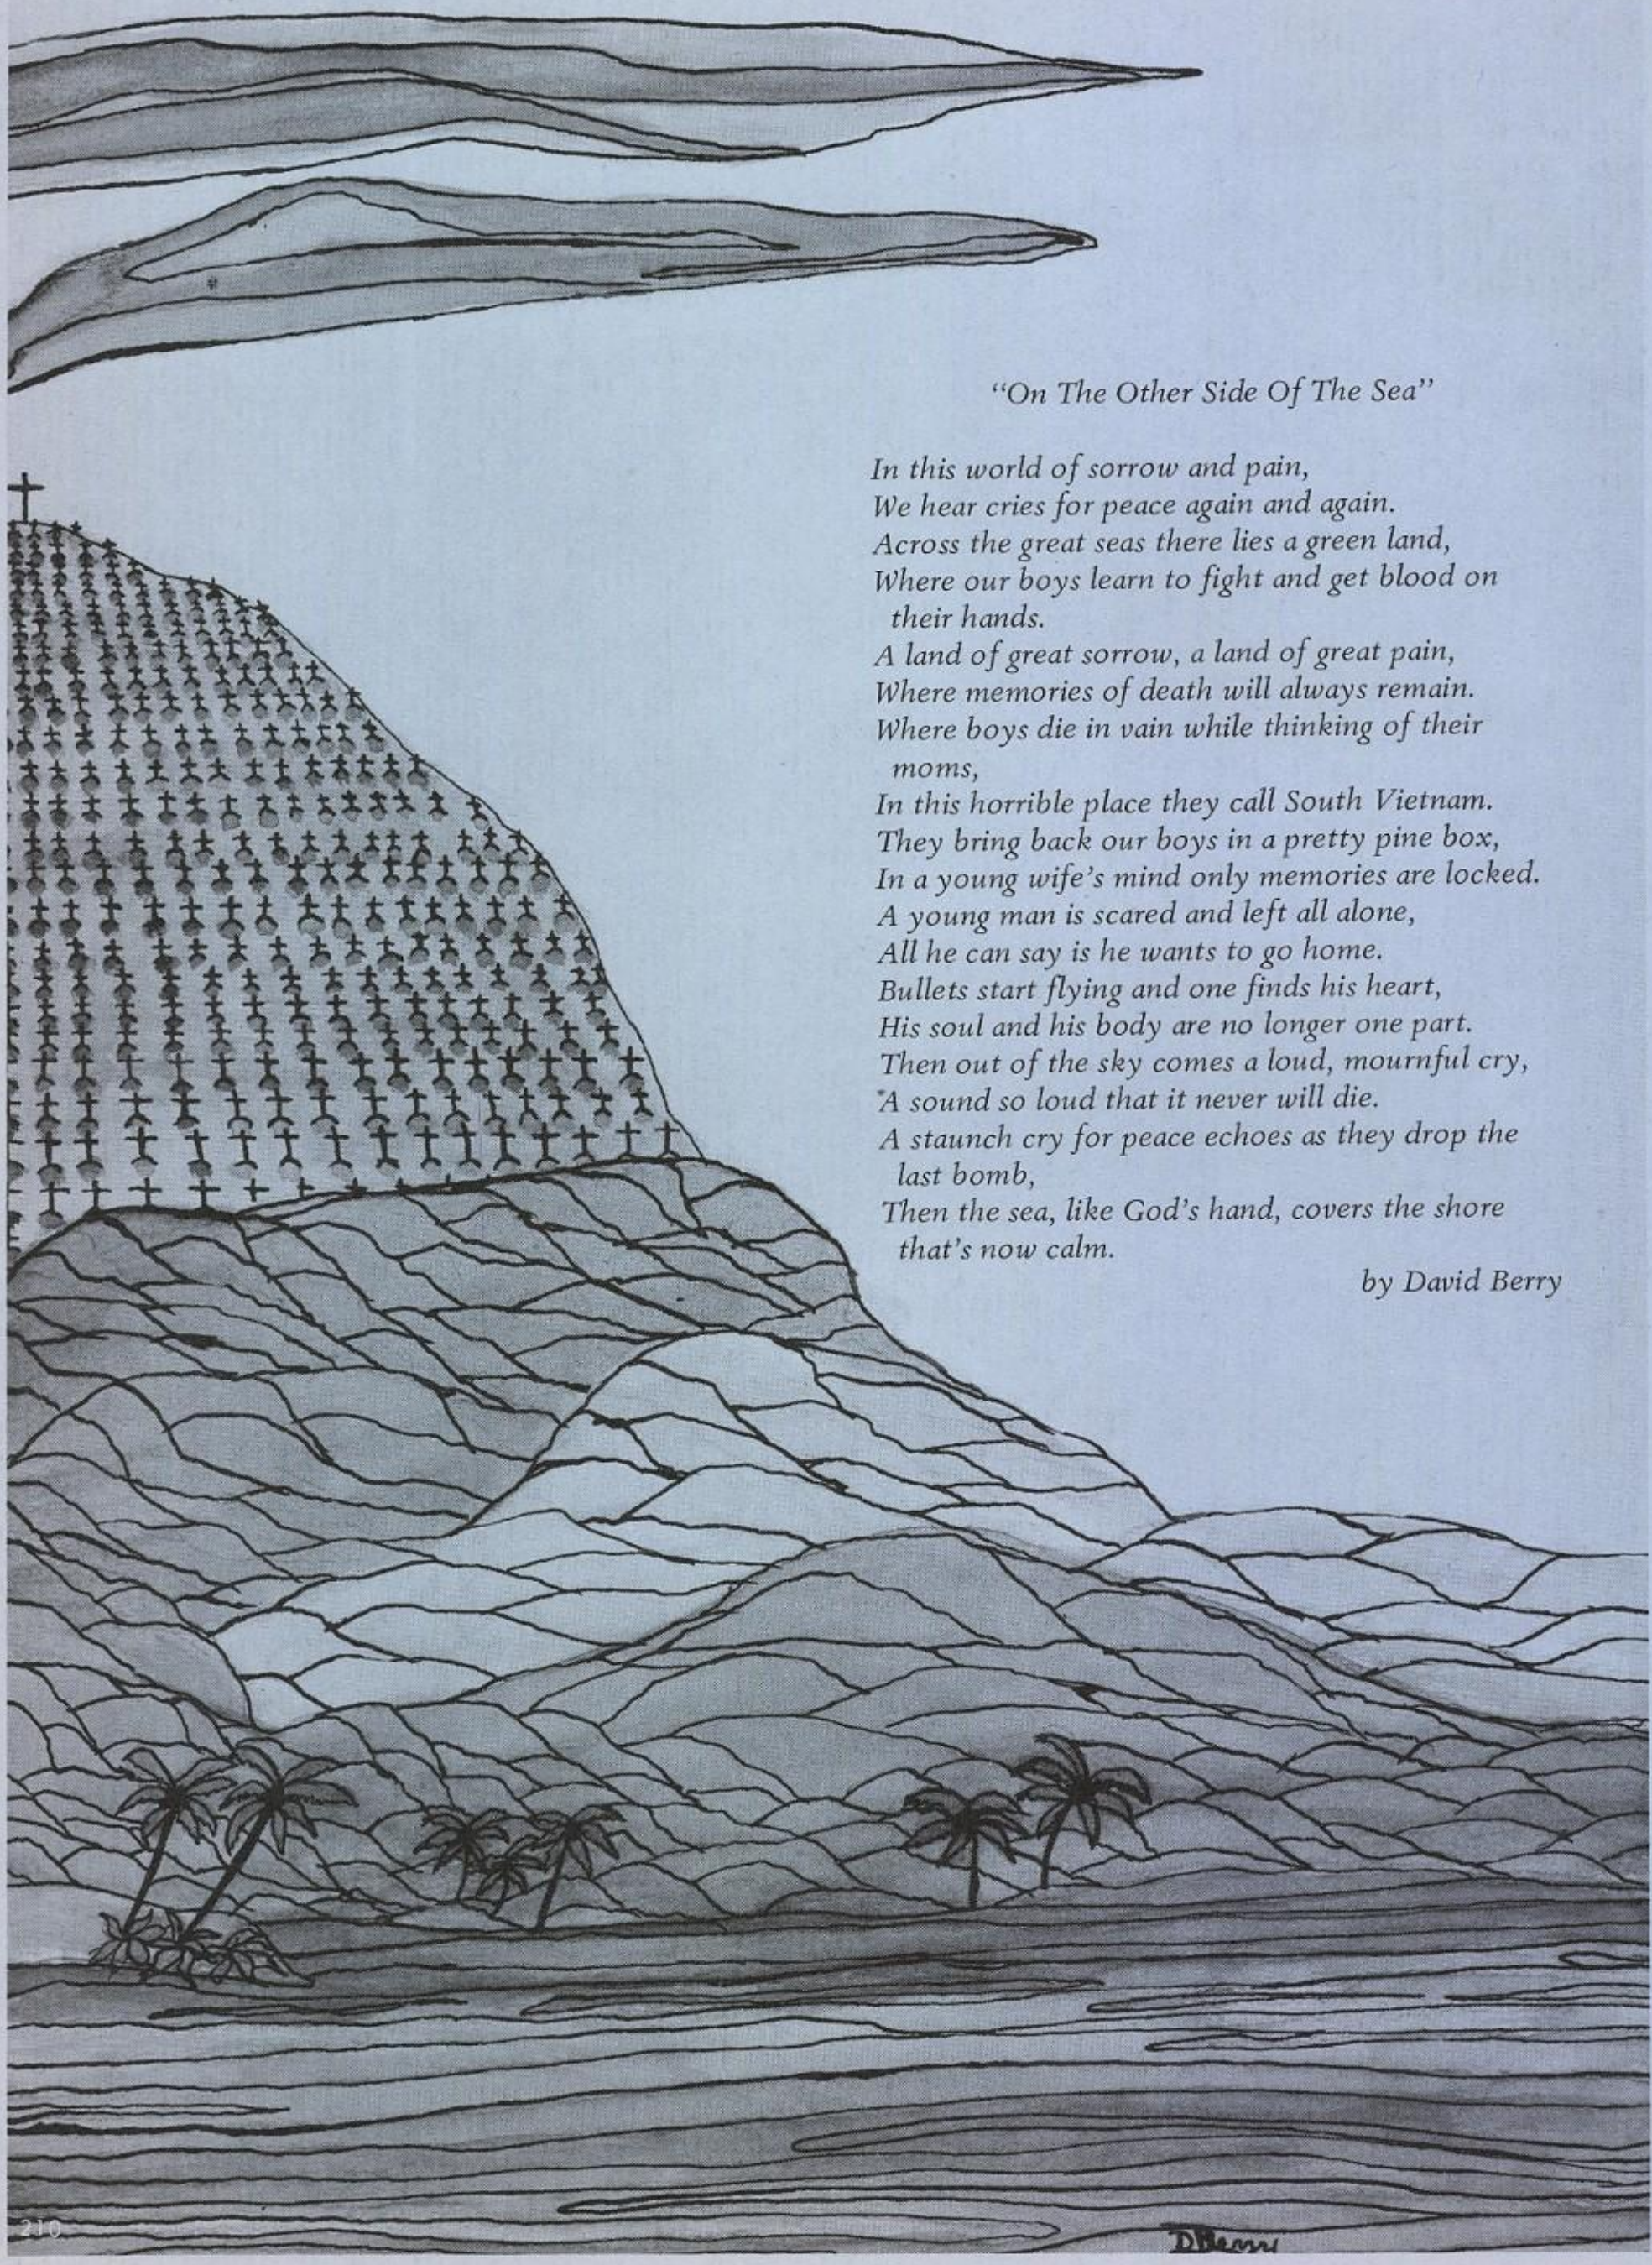
This has been One of my best years here at tech. Hope the next two years are just as good. Then I'll never forget Trimble Hall and the Center.

You'll have to use your imagination for this page, because the annual staff has gone swimming.

P.S. The water is fine!

"Ripples"
The sea intones the ageless anthems,
Her songs are wafted on the ocean breeze,
Humanity's tears are merely ripples,
Ripples fading into timeless symphonies.
by Travis Donoho

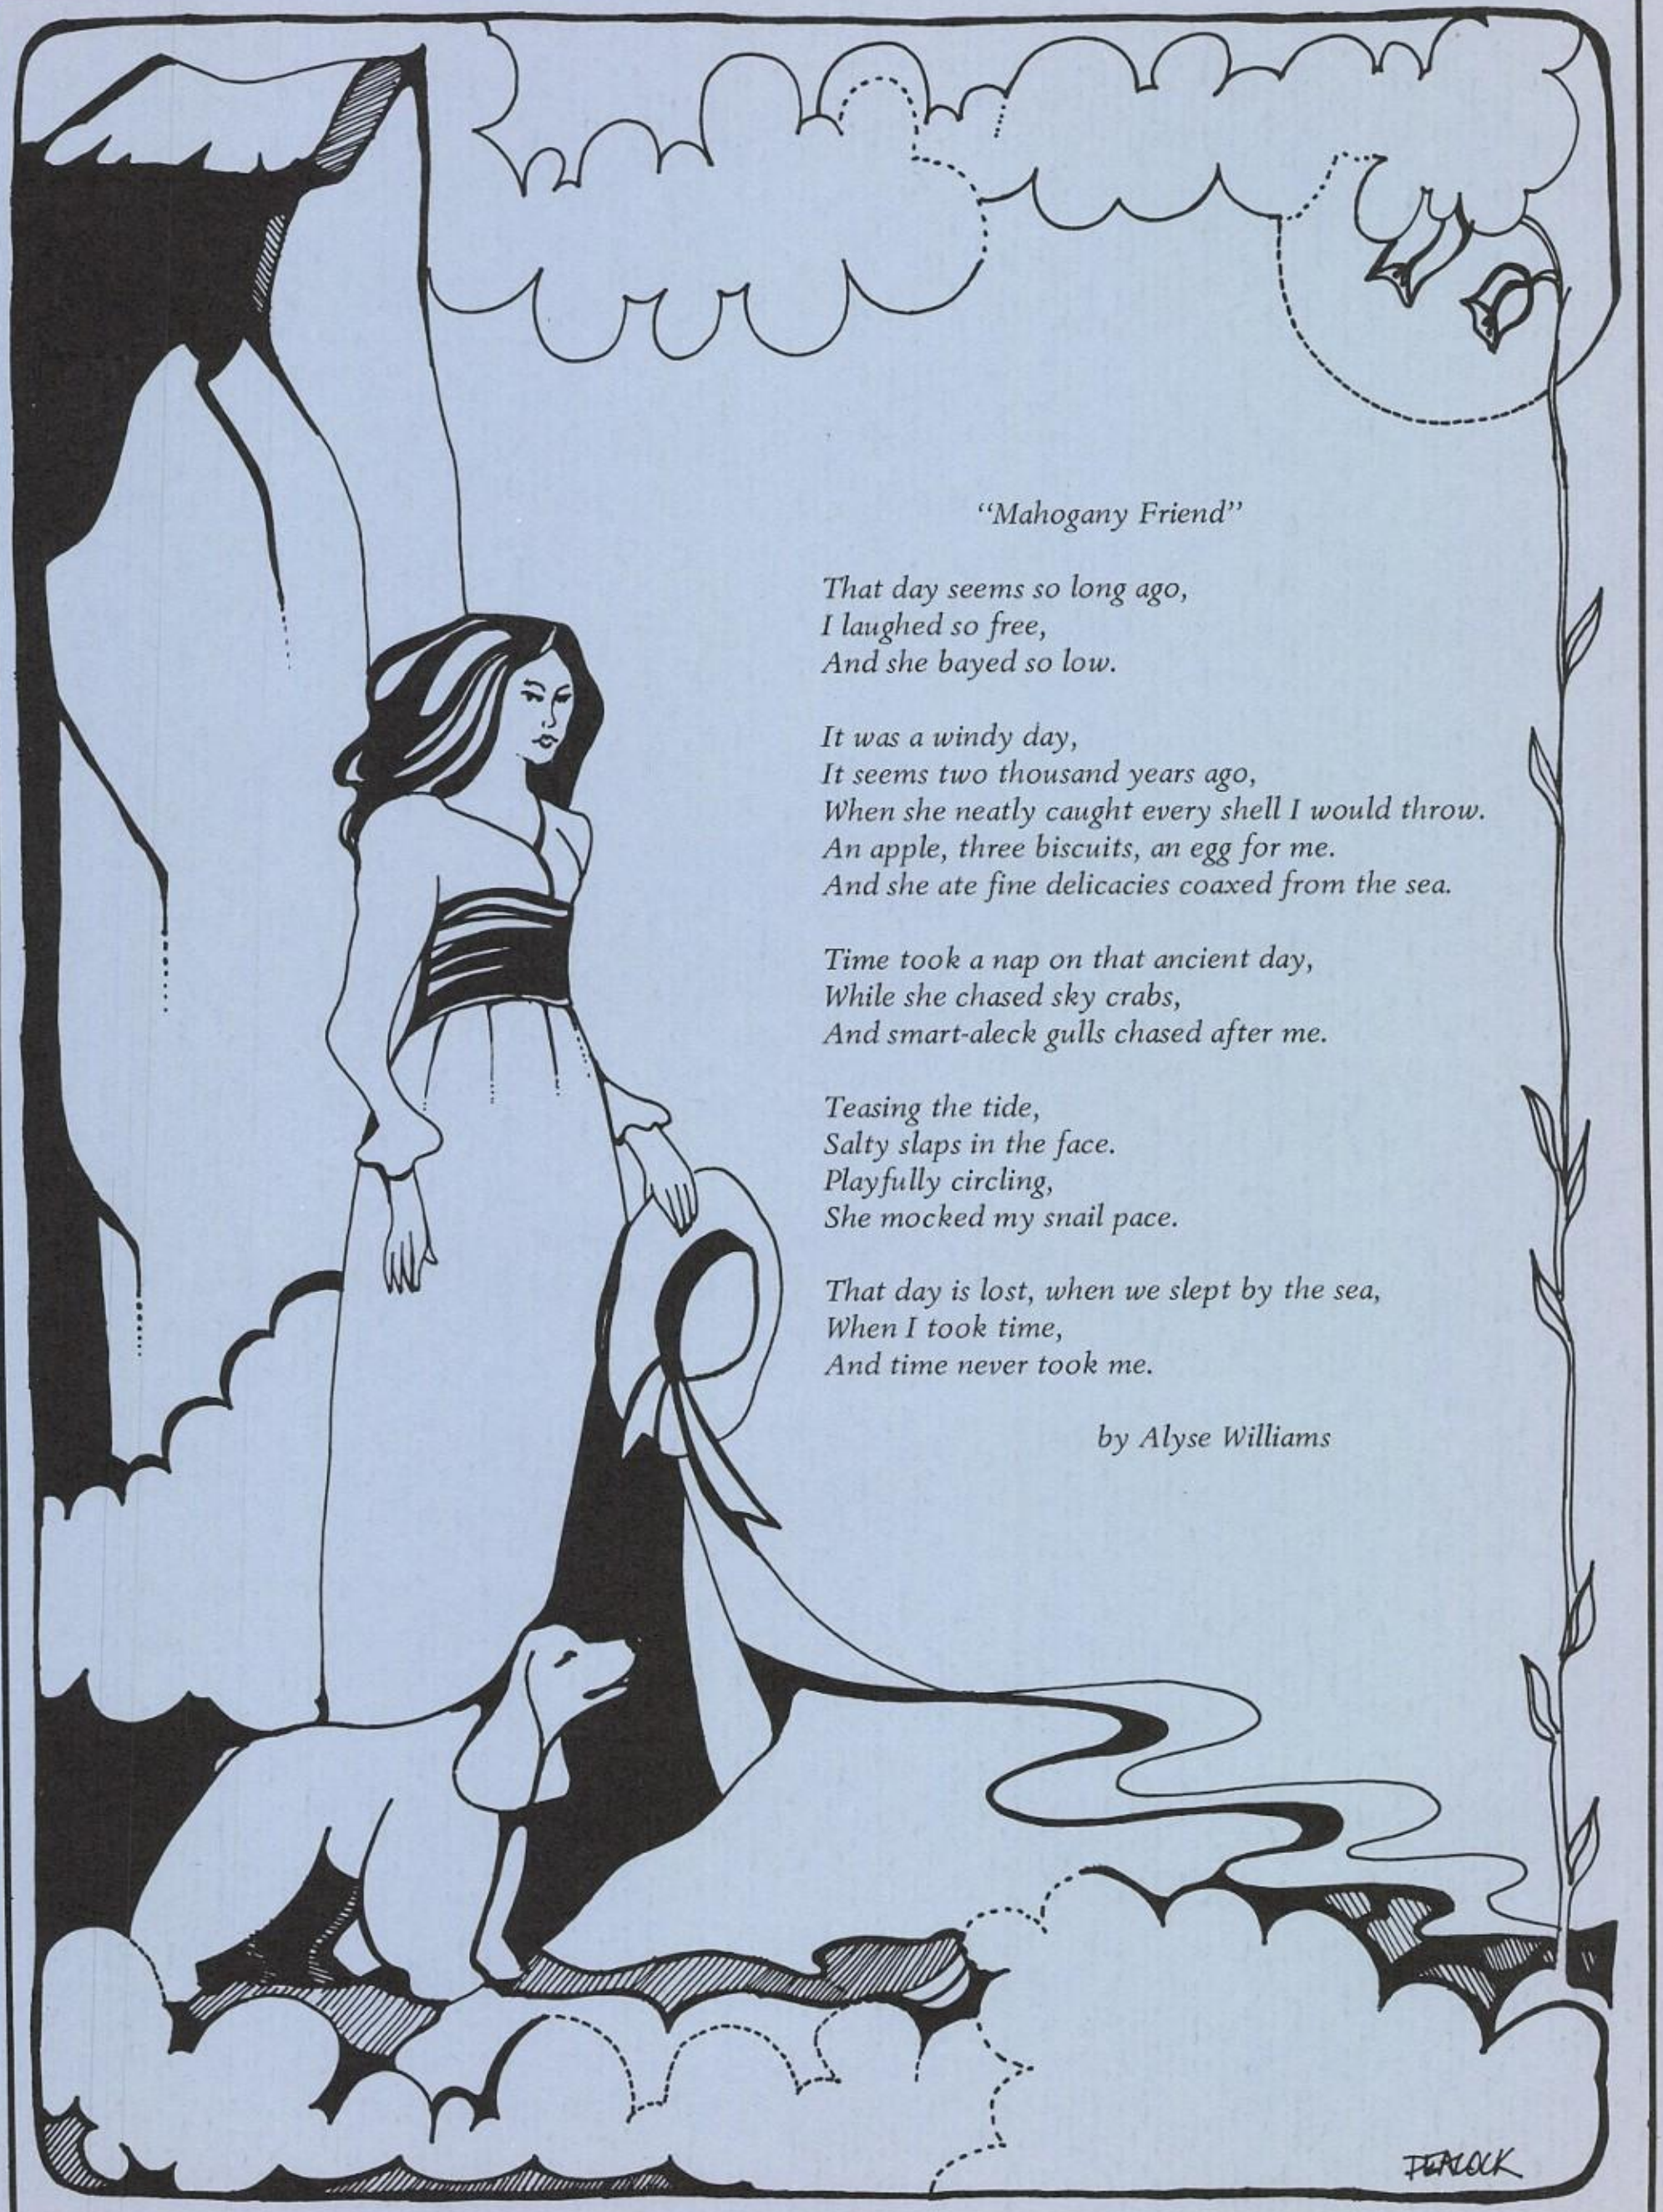




"On The Other Side Of The Sea"

In this world of sorrow and pain,
We hear cries for peace again and again.
Across the great seas there lies a green land,
Where our boys learn to fight and get blood on their hands.
A land of great sorrow, a land of great pain,
Where memories of death will always remain.
Where boys die in vain while thinking of their moms,
In this horrible place they call South Vietnam.
They bring back our boys in a pretty pine box,
In a young wife's mind only memories are locked.
A young man is scared and left all alone,
All he can say is he wants to go home.
Bullets start flying and one finds his heart,
His soul and his body are no longer one part.
Then out of the sky comes a loud, mournful cry,
A sound so loud that it never will die.
A staunch cry for peace echoes as they drop the last bomb,
Then the sea, like God's hand, covers the shore that's now calm.

by David Berry



"Mahogany Friend"

That day seems so long ago,
I laughed so free,
And she bayed so low.

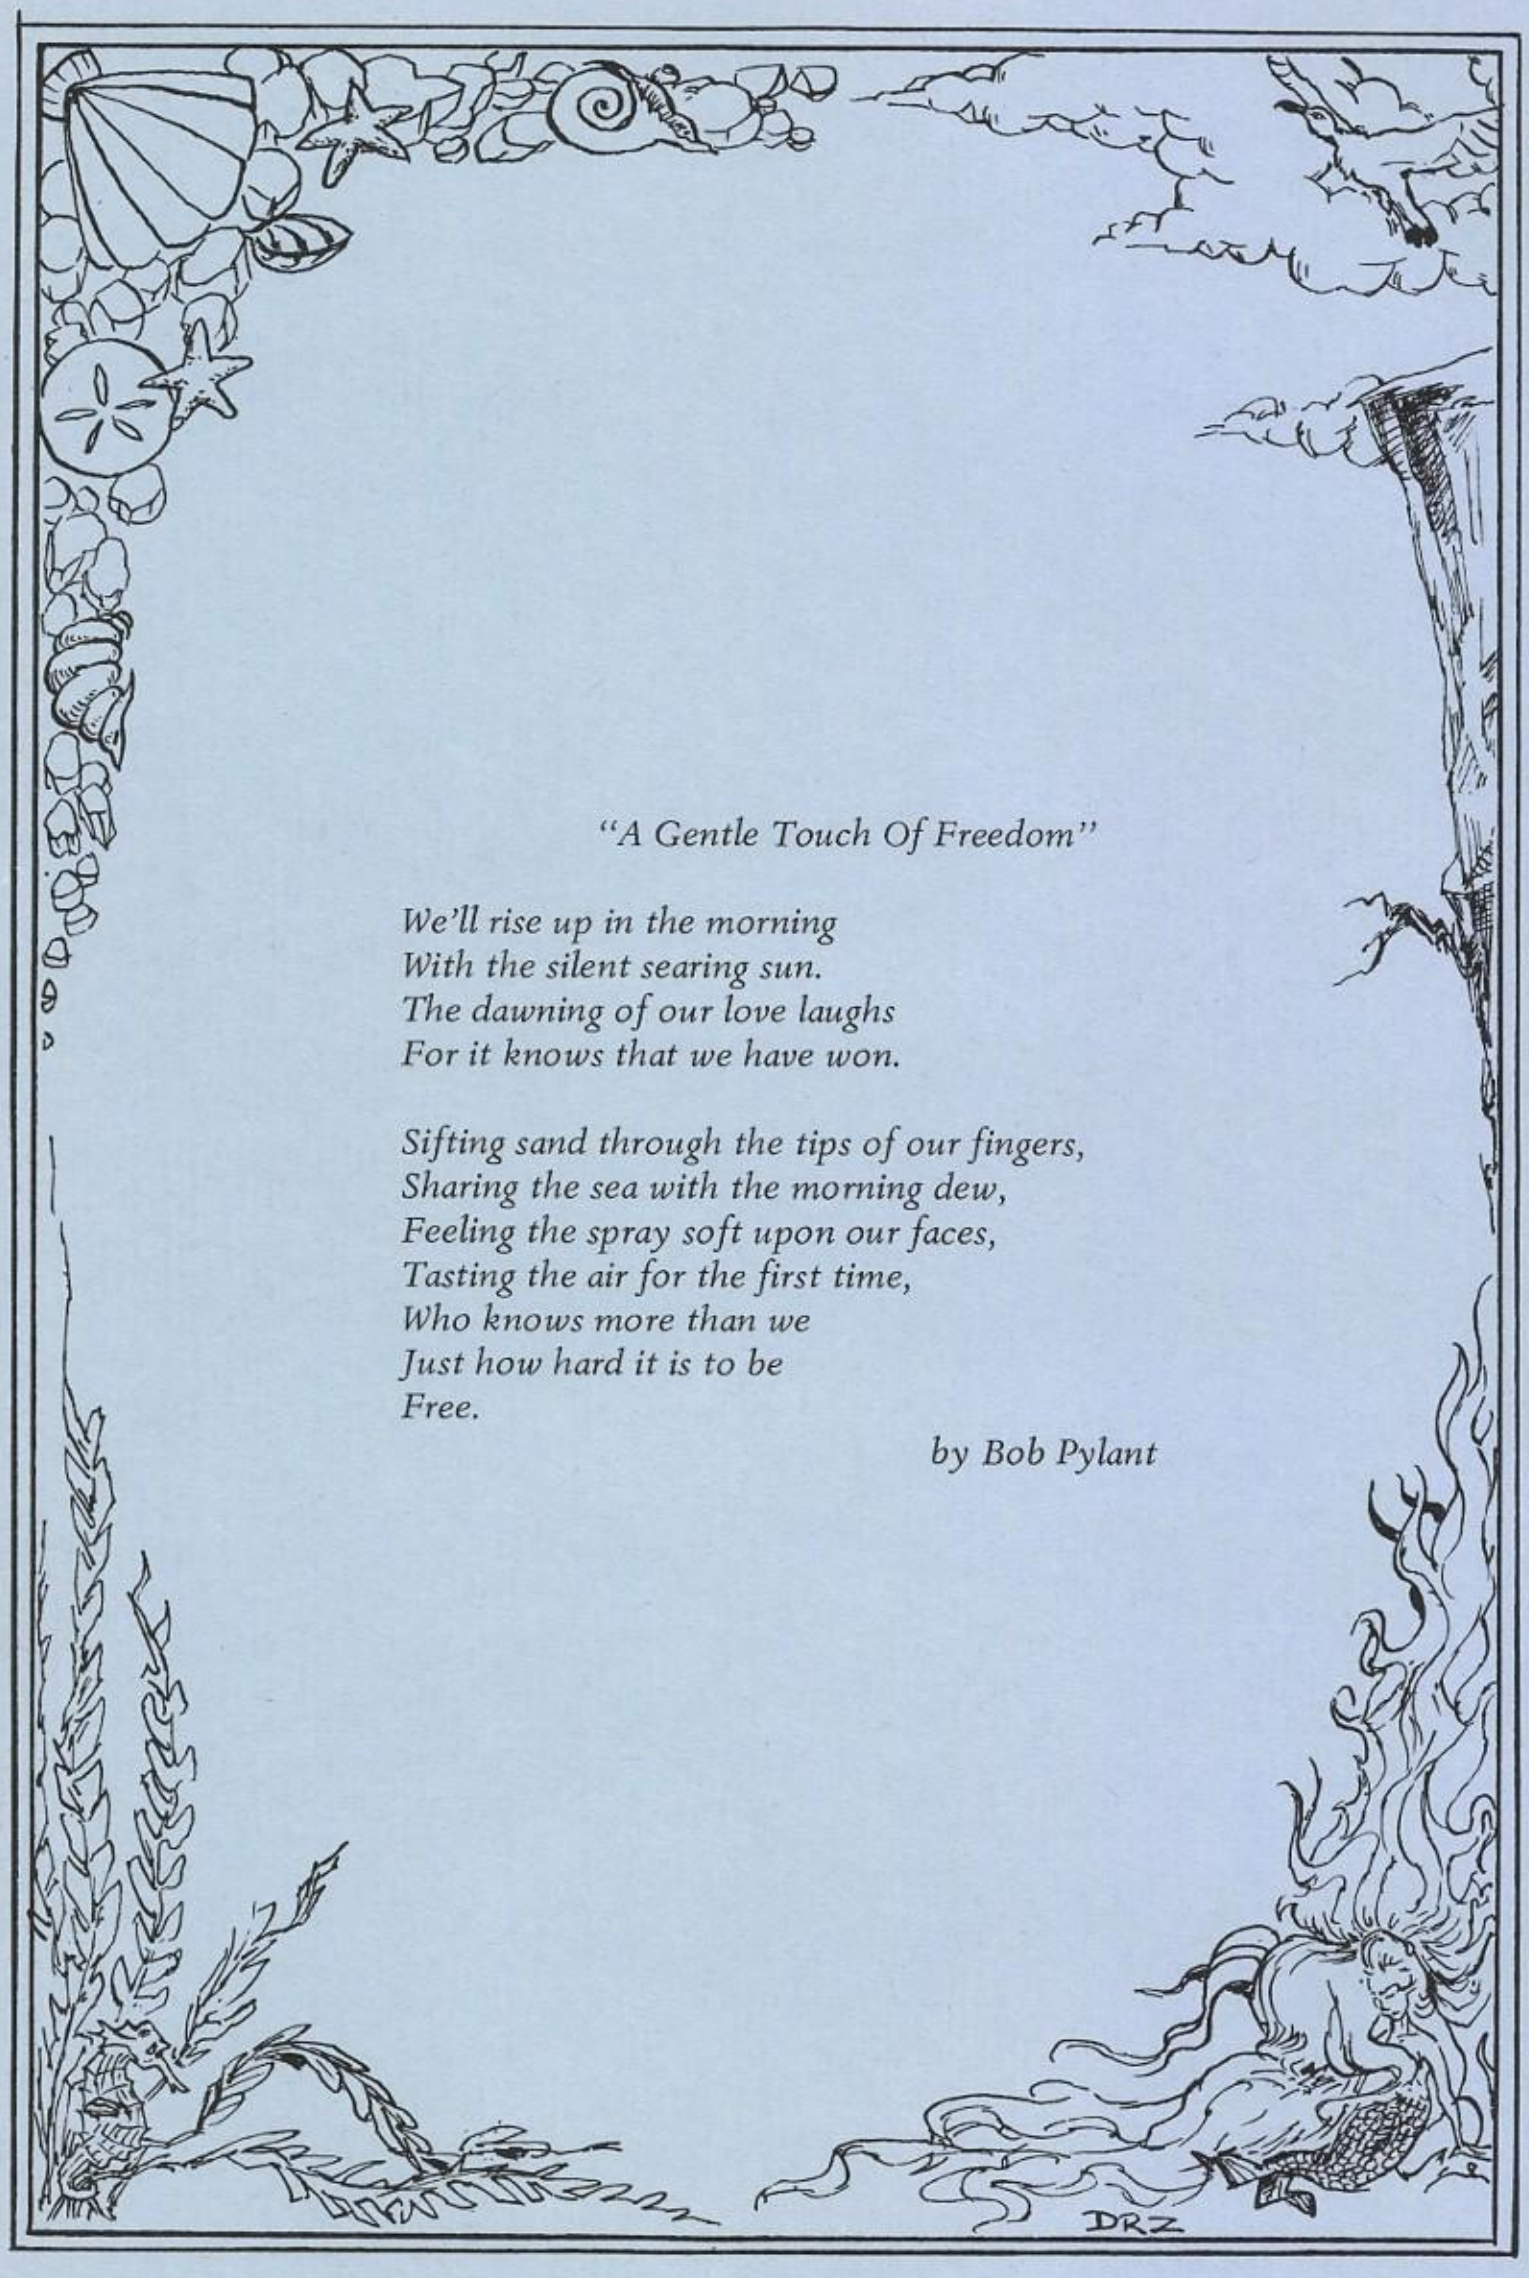
It was a windy day,
It seems two thousand years ago,
When she neatly caught every shell I would throw.
An apple, three biscuits, an egg for me.
And she ate fine delicacies coaxed from the sea.

Time took a nap on that ancient day,
While she chased sky crabs,
And smart-aleck gulls chased after me.

Teasing the tide,
Salty slaps in the face.
Playfully circling,
She mocked my snail pace.

That day is lost, when we slept by the sea,
When I took time,
And time never took me.

by Alyse Williams



"A Gentle Touch Of Freedom"

We'll rise up in the morning
With the silent searing sun.
The dawning of our love laughs
For it knows that we have won.

Sifting sand through the tips of our fingers,
Sharing the sea with the morning dew,
Feeling the spray soft upon our faces,
Tasting the air for the first time,
Who knows more than we
Just how hard it is to be
Free.

by Bob Pylant

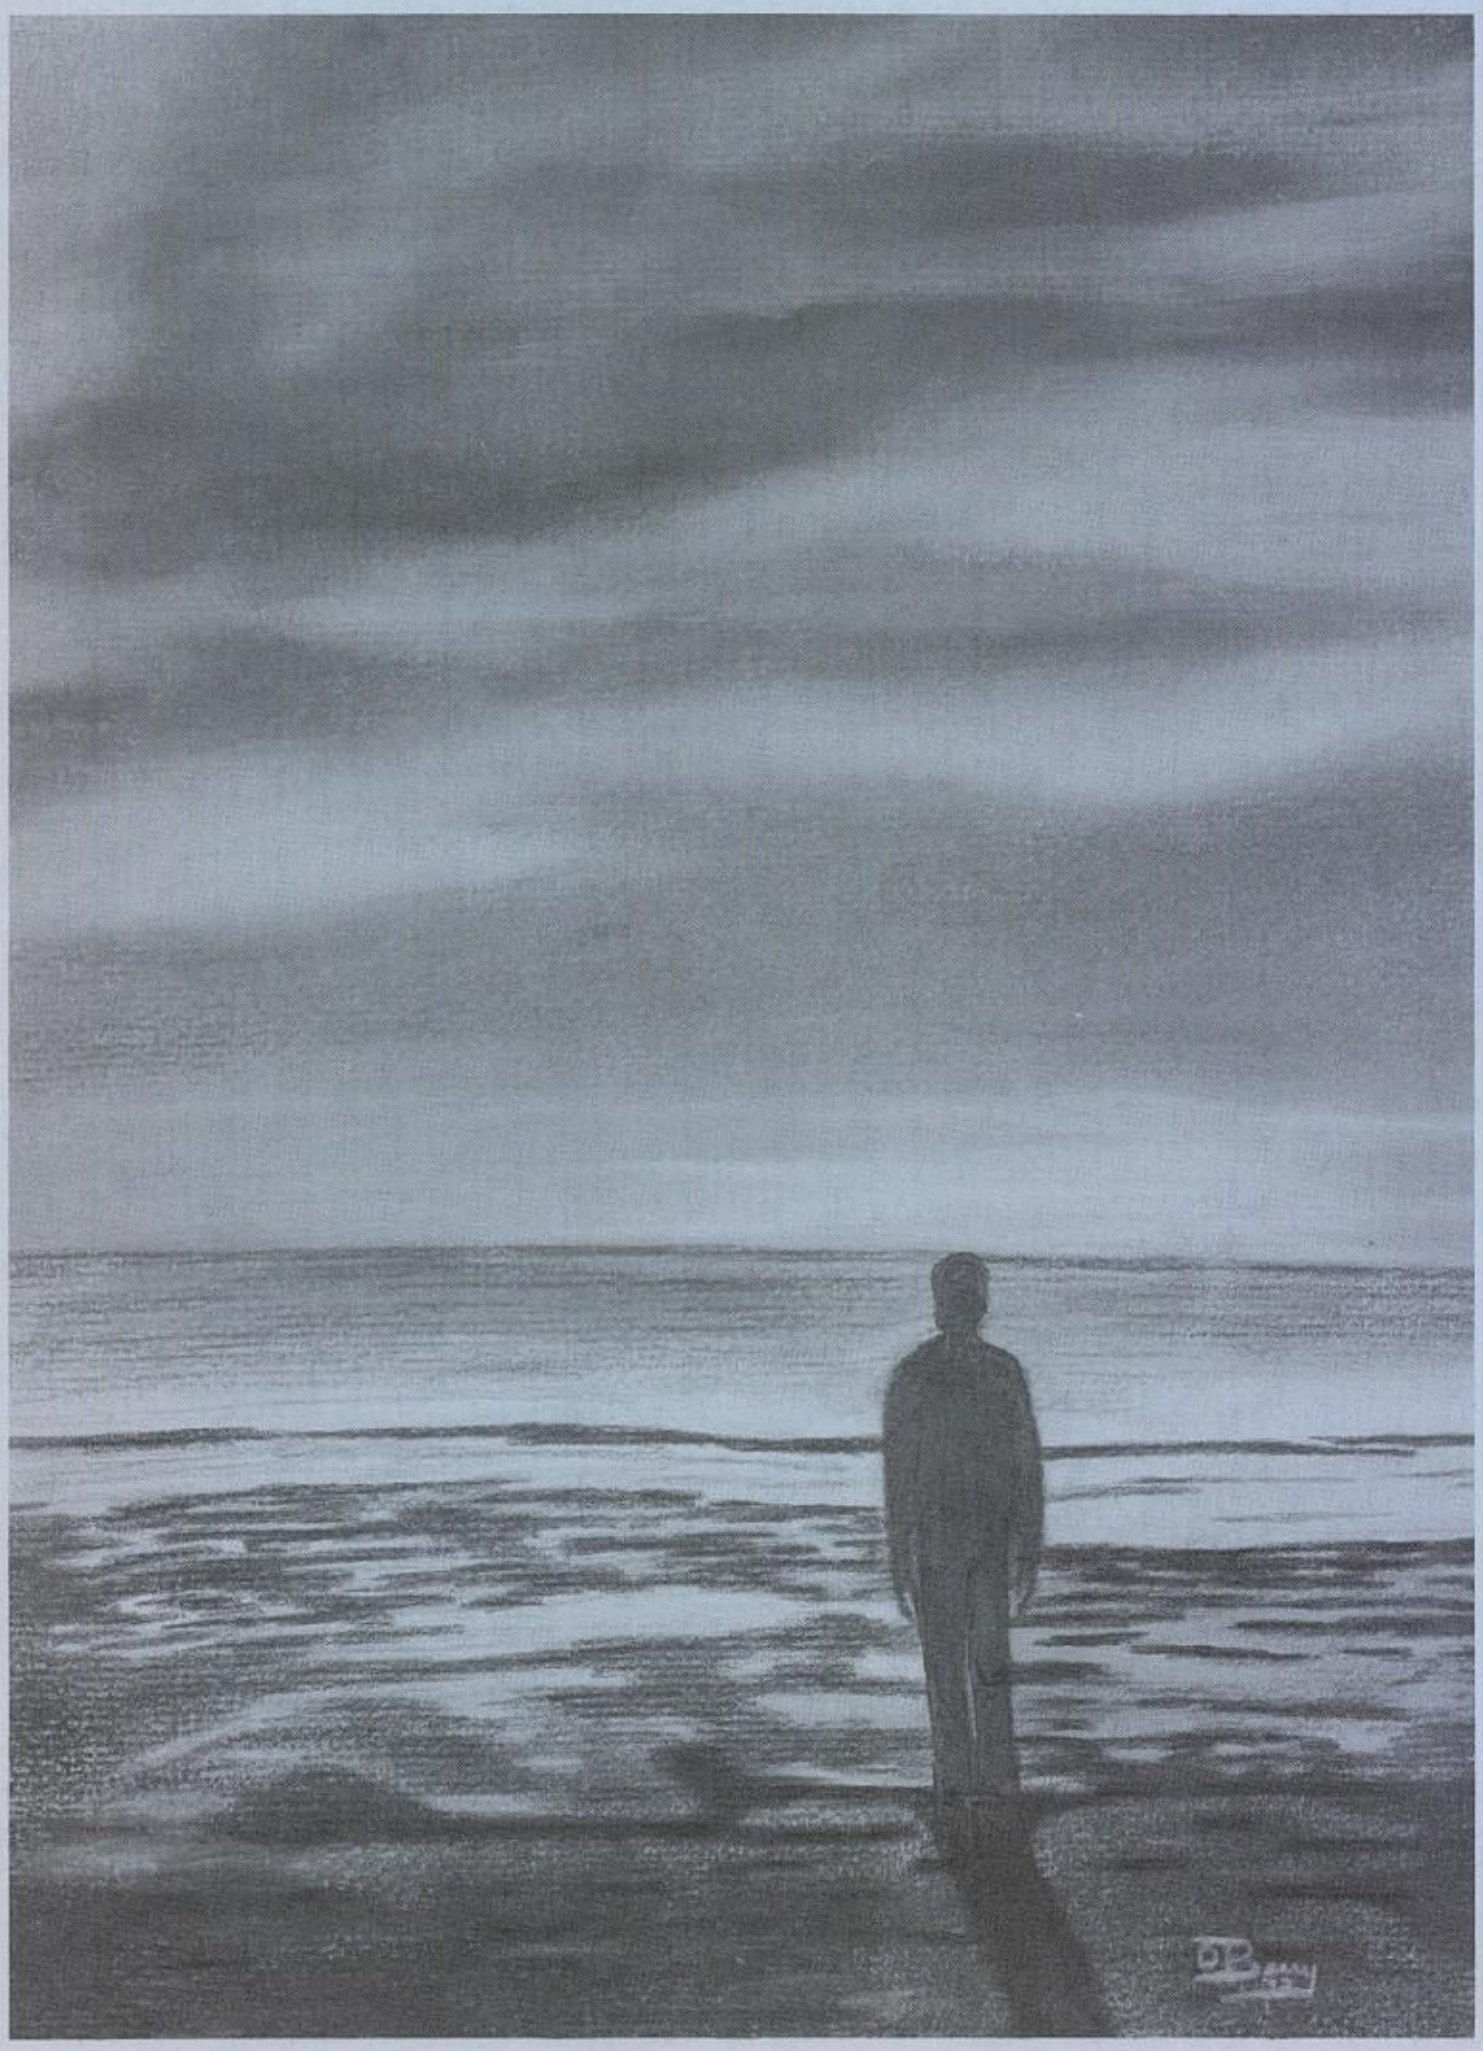
"Moon Waves"

As waves rolled softly upon the shore

I conversed with the darkening sky

Once again alone with the sea

My face held a broadening smile



I reach forth to kiss
the oncoming tide

As one would a new-found
love

But being shy she gently
laughed

Then fled as I glanced
above

For there was no sight to
gaze calmly upon

And my mind sensed a shift
in the sand

For the moon lay in waiting
dreadfully cold

Being strangled by a skeletal
hand.

by Bob Pylant

"Queen Of The Mermaids
On The Late, Late Show"

Remember the days of movie mermaids
Swimming in wild and watery fun?
Recall those memories of poolside parties,
And of beauties basking in the sun?

Remember when Esther was everyone's idol,
Starring in such pictures as "Easy to Wed"?
She was "Million Dollar Mermaid," "Jupiter's Darling,"
And thoroughly delightful in "Dangerous When Wet."

Our cheers are for you, dear Esther Williams!
On TV's late show you have no flaws.
You have always been a perfect mermaid--
You, alone, deserve our applause!

"Bathing Suits"

Mine is too tight!
Mine is too loose!
We can't wear these things--
Last year's bathing suits!

The struggle and strain,
Oh, what a chore
To get into these shells . . .
But we can't afford any more!
